## EGYPT PAYS BRITAIN HUGE INDEMNITY ASKED

**500,000 POUNDS  
PAID 15 MINUTES  
BEFORE TIME LIMIT**

**GOVERNMENT OF EGYPT, HEAD-  
ED BY ZAGHLUL PASHA,  
THEN RESIGNED**

**PAYMENT OF SUM (NEARLY \$2-  
500,000) TAXED EGYPTIAN  
TREASURY**

(By United Press)  
Cairo, Nov. 24.—Just 15 minutes before expiration of the time limit set in the British ultimatum, the Egyptian government at 11:45 a. m. today paid Great Britain 500,000 pounds, as indemnity for the assassination of Sir Lee Stack.

The government, headed by Zaghlul Pasha, then resigned.  
Payment of the sum (nearly \$2,500,000) which so severely taxed the Egyptian treasury, was made under the guns of a British warship, the Benbow, which arrived at Alexandria this morning.

The check was accompanied by a brief note to protest that some of Britain's other demands delivered by Lord Allenby contained seven demands and threatened appropriate measures if they were not complied with within 24 hours. This time limit expired, and a new note was presented, demanding the payment of the indemnity by noon today.

**GOVERNMENT PLANS  
ARE CLOSELY GUARDED**

London, Nov. 24.—Important troop, naval and air force movements were under discussion by the British cabinet when it met at 10 Downing Street at noon today to consider the critical situation in Egypt.

The government's plans were closely guarded, as the extent of the measures to be taken depends upon the promptitude with which the British demands are met.

During the week-end Stanley Baldwin was at Chequers, but kept in constant touch with the heads of the army and navy.

**EGYPTIAN ASSOCIATION  
IN PARIS IS RESENTFUL**

Paris, Nov. 24.—The Egyptian Association in Paris wired Prime Minister Stanley Baldwin today:

"Egypt is resolved to continue to fight British influence in the Nile valley. We repulse your humiliating demands. Your soldiers and your fleet do not frighten us."

**5 BRITISH WARSHIPS  
CONVERGE ON EGYPT**

London, Nov. 24.—Five British warships, including the dreadnaught Iron Duke, converged on Egypt today to enforce Great Britain's demand for reparations for the murder of Sir Lee Stack.

A full cabinet meeting at No. 10 Downing Street resulted in the Iron Duke being ordered to Alexandria from Malta. The battleship Malaya was ordered from Malta to Port Said. The cruiser Caradoc and two destroyers left Greece for the Suez canal.

This afternoon it was announced that evacuation of Egyptian army units from the Soudan had begun.

**TOWN SECEDES  
ON ACCOUNT OF  
TEMPERANCE ACT**

Toronto, Nov. 24.—Municipally Sturgeon Falls henceforth will be blind to blind pigs. No longer will it leg after bootleggers. The word "dry" will be only a memory.

The town has seceded from the Ontario government or at least from the Ontario temperance act, the town council having pronounced the act "null and void" and instructed the police force to take no further hand in the enforcement. Sturgeon Falls is in the far north where for months, if not years, the lumbering and mining centers have talked secession.

At the Ontario plebiscite Oct. 23, Sturgeon Falls recorded a vote of 1,040 for government control and only 102 for prohibition. Police Chief Susson's job has been threatened if he enforces the temperance act.

## Koretz, Alleged "Prince of Swindlers", Found

**ITALIAN TOWN  
ENTIRELY WIPED  
OUT BY A FIRE**

(By United Press)  
Rome, Nov. 24.—The entire town of Certosa in the Venosta Valley was wiped out by fire today, according to advices from Venice. Five persons were missing and are believed to have been burned to death. Venice authorities have sent troops with tents and food for 200 families made homeless.

**NOTED LIBERAL  
PREACHER TAKES  
TO N. Y. HOSPITAL**

**DR. PERCY STICKNEY GRANT RE-  
PORTED ANAEMIC AND  
RUN DOWN**

**FORMER RECTOR ATTRACTED  
GREAT INTEREST IN DISPUTE  
WITH BISHOP MANNING**

(By United Press)  
New York, Nov. 24.—Dr. Percy Stickney Grant, noted liberal preacher, is in New York Hospital suffering from a nervous disorder and a consultation will be held in his case today.

The former rector of the Church of the Ascension on Fifth Avenue, whose dispute with Bishop Manning of the Episcopal diocese of New York attracted nationwide attention, was admitted to the hospital Sunday, suffering from a general breakdown and was highly nervous.

Dr. Grant resigned his pastorate last June because of ill health. He had been living quietly on his farm in Bedford village. At that time he ascribed his trouble to bad sewerage in the rectory. He was described as anaemic and run down.

**"Other Woman" Sued  
by Wife for \$15,000  
for Stealing Mate**

St. Paul, Nov. 24.—Charging the defendant with maliciously gaining the affections of her husband, Carroll R. Gregory, Mrs. Stella Gregory late Friday filed suit for \$15,000 damages against Edna Gerde.

Mrs. Gregory asserts in her complaint she has been the wife of Mr. Gregory since Oct. 11, 1922.

In September, 1923, Mrs. Gregory charges, the defendant wickedly and maliciously gained Mr. Gregory's affections and "induced him by offers of money and otherwise" to leave her without support and accompany her to Minneapolis.

Mrs. Gregory charges her husband has become estranged from her. The complaint was filed by George L. Siegel, attorney for Mrs. Gregory.

**Discipline In Red**

(By United Press)  
Moscow, Nov. 24.—Discipline in the Red army is assuming the most rigid forms, and a recent order of the Moscow military district illustrates the encroachment of an unaccustomed strictness upon the more easy-going and lenient spirit hitherto prevailing among officers and troops.

The commander's instructions denounce the "untidiness and carelessness" apparent among the Moscow troops and even among those of higher rank.

"It is common to see uniform coats unbuttoned," declares the commander "overcoats are worn as capes, hats pushed back upon the head and torn uniforms unattended."

"It would seem," concludes the commander, cynically, "that this untidiness is regarded by many of the men as a manifestation of democracy and as an expression of their 'proletarian descent.'"

The commander finally orders that the strictest measures be taken against the recurrence of such slovenliness and that troops be inspected more intensively before they are allowed to leave barracks.

**"INSIDE RING"  
MAY OPERATE IN  
VETERANS' BUREAU**

**SENSATIONAL DEVELOPMENTS  
EXPECTED IN CASE AT  
MINNEAPOLIS**

**JUDGE McKEE DECLARES HE  
WILL GET TO BOTTOM OF  
BEACH CASE**

(By United Press)  
Minneapolis, Nov. 24.—Sensational developments which may disclose the existence of an "inside ring" in the Tenth District U. S. Veterans' Bureau came today.

Judge John F. McKee, in federal district court, postponed the sentence of Major Alfred H. Beach, former legal advisor and appeal board chairman of the bureau, convicted of accepting a bribe from a disabled veteran. At the same time he ordered C. D. Hibbard, Tenth District manager of the bureau, to appear in court and explain charges that he boasted during the trial of Beach that he "could throw the case either way."

Friends of Major Beach charged that he is being made "the goat" for illegal practices of others within the Veterans Bureau and declared if he was given a heavy sentence they would bare the "inside ring" spoken of. Affidavits were presented revealing that the United States senate investigating committee was deliberately "thrown off the trail." Other affidavits charged misconduct on the part of jurymen during the trial of Major Beach.

The sentence of Beach was postponed until Wednesday, Judge McKee declaring his intention to get to the bottom of the affair.

**COL. FORBES  
IS ON TRIAL**

**HE IS CHARGED WITH DEFRAUD-  
ING THE GOVERN-  
MENT**

(By United Press)  
New York, Nov. 24.—As attorneys for the defense won two technical victories in motions before the court, selection of a jury in the trial of Col. R. Forbes and John W. Thompson was started before Judge George A. Carpenter here today.

Forbes, former head of the Veterans' Bureau, and Thompson, St. Louis contractor, are answering indictments charging them with defrauding the government and accepting bribes in connection with the building of Veterans' hospitals.

**WOMAN DIES  
OF SMALLPOX  
IN ST. PAUL**

St. Paul, Nov. 24.—Another black smallpox death was reported Saturday by Dr. B. F. Simon, city health officer.

Mrs. Charles Hilsberg, 941 Otto ave., 52 years old, died of the disease Friday night. She was reported sick only a day ago.

The report of the health inspector shows that a daughter of Mrs. Hilsberg was employed as a nurse on a black smallpox case in Minneapolis. Dr. Simon said he is investigating this further.

Mrs. Hilsberg was vaccinated when 6 years of age, according to her daughters. No new cases of smallpox were reported by the bureau today. Two cases were released, making 40 under quarantine.

Dr. Simon today asked employers to warn employees that failure of a vaccination to "take" does not necessarily indicate immunity. He urges consultation with physicians or the bureau as to the necessity for a second vaccination.

Fifteen new cases of smallpox in Minneapolis were reported to the state board of health today. No deaths were reported.

**CRUSHED UNDER CAR,  
MAN SHOTS SELF  
TO END SUFFERING**

(By United Press)  
Hamilton, O., Nov. 24.—Suffering agony as he lay beneath the wreckage of the automobile which had crushed out the life of his companion, Vassil Combs, 22, today drew a revolver from his pocket and committed suicide.

Louis Simpson, 22, was killed instantly when the automobile left the slippery road on a sharp curve. The other occupants of the car, Louis Lakes and John Combs, were not seriously injured. Unable to free Vassil Combs from the wreck, they went for help and in their absence Combs killed himself.

**MARION AT BIER  
OF MRS. HARDING**

**PAYS FINAL TRIBUTE TO WIFE  
OF ILLUSTRIOUS  
CITIZEN**

(By United Press)  
Marion, Nov. 24.—With flags along Main Street at halfmast and business houses closed, Marion and the nation this afternoon paid final tribute to Mrs. Florence Kling Harding. Simple funeral services got under way immediately upon the arrival of the floral laden casket at Epworth Methodist Episcopal church.

Following brief prayer by Rev. G. M. Landis, minister of the Baptist church, of which the late President Harding was a member, and a song by the Republican Glee Club of Columbus, Rev. James Shank, Mrs. Harding's minister, delivered a funeral service.

**Study the Chigger**

Chiggers are scarcely the sort of live material you would care to bring into your schoolroom for study; and it is to be hoped that no outdoor lesson may lead to the unwitting acquisition of a supply. On the other hand a lesson would be valuable to any class, says Nature Magazine. Youngsters knowing when and where the danger of attack is greatest, and the best means of preventing it, may be saved much real suffering.

This interest in rich men's incomes is perfectly natural. Some people are born acquisitive and others inquisitive. — Philadelphia North American.

**AMERICAN BEET  
SUGAR COMPANY**

**BUYS PLANTS ESTABLISHED AT  
MASON CITY, IA., AND  
CHASKA, MINN.**

(By United Press)  
New York, Nov. 24.—The American Beet Sugar company has exercised its option to purchase the Northern Sugar company, with a modern beet factory in Mason City, Iowa, and the Minnesota Sugar company, with a plant at Chaska, Minn. The purchase will be a cash transaction of \$22,900,000 for the Northern Sugar and \$1,500,000 to \$1,600,000 for the Minnesota Sugar company, a recently formed concern with undeveloped properties, which is jointly controlled by the Northern Sugar and Minnesota Sugar.

It is understood that H. A. Douglas, president of Northern Sugar and Minnesota Sugar companies, will become affiliated with the American Beet Sugar company in an executive capacity. According to tentative plans the minimum amounts to be paid shareholders are as follows:

\$117 a share for preferred stock and \$49 for the common share of Northern Sugar, and \$10 for the preferred and \$21 for the common stock of Minnesota Sugar company. The principal properties of the American Beet Sugar Company are located in California, Colorado and Nebraska.

**GANGLAND IN  
CHICAGO AFLAME  
WITH NEW WARS**

**TANCL, "CZAR OF VICE," SHOT  
AND KILLED BY RIVAL  
GUNMEN**

**BEFORE CASHING IN, TANCL  
SHOTS DOWN ONE OF HIS  
ASSAILANTS**

(By United Press)  
Chicago, Nov. 24.—The guns of gangland again roared their defiance of law, and the week-end toll includes Eddie Tancl, potentate of the underworld of Cook county. Tancl's death has again stirred the wrath of rival gangs and police anticipate the bloodiest war in the history of Chicago's underworld.

A week ago Dean O'Banton, leader of one gang, was shot to death. Since then three other gangsters have met death, the latest being Tancl, who was shot to death in his notorious Hawthorne Inn at Cicero, a suburb of Chicago. Tancl was known as the "Czar of Vice."

Yesterday two gunmen of a rival gang shot him, but in dying Tancl proved his courage by following his assailants to the street, shooting and perhaps fatally wounding one man and slightly wounding the other.

The more seriously wounded assailant is Myles O'Donnell, one of the five O'Donnell brothers who are said by police to head a powerful "beer syndicate." O'Donnell was shot down by Tancl 200 feet from the inn.

Tancl collapsed near O'Donnell, but not satisfied with having shot him, Tancl, with smoking empty gun, dragged himself to within striking distance of O'Donnell and pawed at him with the revolver.

**STRIPPING ON  
IRON RANGES**

**BELIEVED THEY WILL CONTINUE  
FULL BLAST THIS WINTER  
ON MESABA**

(By United Press)  
Duluth, Minn., Nov. 24.—Stripping operations will continue in full blast over the iron range as long as the weather permits this winter. The Oliver Iron Mining company will employ more men this winter in the Hibbing-Virginia region than last year.

Many other companies announced they would use full winter crews and operators believe prosperity will continue on the range throughout the season.

**Indian Mother in Court  
for Censuring Flappers**

St. Paul, Nov. 24.—Lizzie White Feather is no modern mamma. Mamma White Feather, who lives at 540 Canada st., believes in applying the ancient Indian methods to her two flapper daughters. It's tribal custom for the mother to talk and the Indian maidens to listen. Mamma White Feather talked in a voice that could be heard from one tepee of an Indian village to another. The landlord objected. The police came.

And Mamma White Feather, appearing in police court charged with drunkenness, was released by Judge Olson with a warning.

**CATCH OF A  
CANADIAN FISHING  
FLEET WORTH MILLION**

(By United Press)  
Halifax, Nova Scotia, Nov. 24.—The 62 vessels comprising the Lunenburg fishing fleet have this year secured 170,425 quintals of fish, which have been sold for \$1,539,200.

That vest-pocket radio set ought to be a help. Maybe people won't have to stay home at night any more. — Indianapolis News.

**FRENCH LOAN IS  
OVERSUBSCRIBED  
A HALF MILLION**

(By United Press)  
New York, Nov. 24.—The \$100,000,000 French loan was oversubscribed \$55,000,000 after the bonds were offered for sale today and the books were closed.

**NEW EVIDENCE  
MAY LINK CRIME  
TO ONE OF MURDER**

**ANOTHER CLUE UNEARTHED IN  
COLUMBUS, OHIO, FURNACE  
MYSTERY**

**STAINS WHICH MAY BE BLOOD  
ARE FOUND NEAR THE  
FURNACE**

(By United Press)  
Columbus, O., Nov. 24.—New evidence, pointing more directly than ever to the possibility of murder in the furnace mystery, was unearthed today when Prosecutor John R. King and detectives made a thorough search of the Lutheran parsonage.

Stains which may be blood were discovered near the furnace in which Mrs. Addie Sheatsley's charred body was found.

Other stains, a reddish brown in color, were found in an asbestos pipe above the furnace door through which Mrs. Sheatsley's body passed into the firebox.

Several finger-prints were plainly discernible in the dust on another asbestos pipe.

King immediately ordered all of the marks and stains carved out and turned over to Charles Long, chemist, for analysis.

In the parsonage pathologists today burned the bodies of two guinea pigs, hoping through this experiment to learn something of the circumstances of Mrs. Sheatsley's death.

With King standing at his side, Dr. H. M. Brundage threw the bodies into the furnace and watched them burn.

The furnace fire was brought to approximately the same heat as that in which the pastor's wife was found. The guinea pigs were allowed to char until their flesh resembled that of the furnace victim and then were removed to Dr. Brundage's laboratory for further study.

**LIGHTNING IGNORES  
RADIO ANTENNAE**

(By United Press)  
Washington, Nov. 24.—Radio antennae are neither protection against lightning nor a menace, the Bureau of Standards announces after exhaustive tests.

Antennae need not be considered as potential inviters of lightning strokes, being in a class with other metal objects normally found about buildings such as metal gutters, down spouts, and wire clothes-lines, the bureau finds.

As commonly installed, they are of relatively small size, both in extent and in the diameter of the wire used. If grounded, the bureau says, or provided with a lightning arrester, they may afford a very slight gradual drainage of electricity as well as a lightning rod but a direct stroke is likely to fuse them and tear them from their fastenings on account of their small diameter.

The ground lead of an aerial constitutes a lightning rod having a single down conductor, whereas good lightning rod practice, the bureau believes, requires at least two down conductors electrically paralleled but as widely separated as possible.

**APPLE YIELD  
IS LARGE ONE**

(By United Press)  
Halifax, Nova Scotia, Nov. 24.—The Provincial Department of Agriculture estimates the apple yield of the Annapolis Valley at 1,500,000 barrels.

**LIVING IN REGAL  
SPLENDOR IN HIGH  
SOCIETY CIRCLES**

**TENANT OF A PALATIAL ESTATE  
NEAR HALIFAX, "PINE-  
HURST LODGE"**

**IN CHICAGO KORETZ PROMOTED  
ALLEGED FICTITIOUS "BAY-  
ANO TRUST OF PANAMA"**

(By United Press)  
Chicago, Nov. 24.—Leo Koretz, alleged "prince of swindlers," will be returned immediately to Chicago from Halifax, Nova Scotia, for trial on charges of swindling wealthy merchants in Chicago out of sums variously estimated from \$2,000,000 to \$7,000,000. State's Attorney Robert E. Crowe announced today.

Koretz, who disappeared in December, 1923, was captured over the week-end at Halifax by John Sharbaro and William McSwiggan, two of Crowe's assistants. He waived extradition and decreed to return at once. Crowe was told in telegrams from his aides. Koretz wore a full, bushy beard, his principal disguise.

The man who gained the confidence of bankers, merchants, lawyers and retired capitalists and then, according to their charges, fleeced them out of millions in his great "Bayano Trust of Panama," was found in luxury on an estate near Halifax known as "Pinehurst Lodge." He had been admitted to the most exclusive society of the Canadian city. Crowe's men reported.

**COMMITTED FOR  
RETURN TO CHICAGO**

Halifax, N. S., Nov. 24.—Leo Koretz, notorious alleged swindler of Chicago, was arraigned before an extradition commissioner today and committed for return to Chicago.

Fifteen days are allowed for appeal but Koretz said he will not fight extradition. He admitted identity and that a prime facie case was charged in the warrant.

The committal was reported to Ottawa for confirmation and it was understood Koretz will be taken back to Illinois in the near future.

**FRANCE MAKES  
RULING REGARDING  
AMERICAN CLAIMS**

(By United Press)  
Washington, Nov. 24.—The French government, reversing its position, has agreed that American claims against Germany for material losses, amounting roughly to about \$200,000,000, shall be made out of the reparations fund at the same rate of payment as accorded France, it was learned here today.

This agreement removes a misunderstanding between the two governments which almost had reached an embarrassing proportion. It gives the United States equal rights with the Allies under the reparations settlement.

**LOWER FREIGHT  
RATES ON PRODUCTS  
OF THE FARMS**

(By United Press)  
Washington, Nov. 24.—An agreement has been reached among senators for adoption of the resolution instructing the I. C. C. to consider lowering freight rates on agricultural products, Senator Capper, republican, Kansas, farm bloc leader, announced today.

A conference report on the resolution passed by both houses during the last session has been drawn up and will be submitted as soon as Congress reconvenes. This is an amalgamation of the Hoch resolution in the house and the Smith resolution in the senate which expressed the sense of congress that present rates are unfair to agriculture.

These are the days when a hunter is lucky if he brings himself home. — Indianapolis News.

## EGYPT PAYS BRITAIN HUGE INDEMNITY ASKED

**500,000 POUNDS  
PAID 15 MINUTES  
BEFORE TIME LIMIT**

**GOVERNMENT OF EGYPT, HEAD-  
ED BY ZAGHLUL PASHA,  
THEN RESIGNED**

**PAYMENT OF SUM (NEARLY \$2-  
500,000) TAXED EGYPTIAN  
TREASURY**

(By United Press)  
Cairo, Nov. 24.—Just 15 minutes before expiration of the time limit set in the British ultimatum, the Egyptian government at 11:45 a. m. today paid Great Britain 500,000 pounds, as indemnity for the assassination of Sir Lee Stack.

The government, headed by Zaghlul Pasha, then resigned.

Payment of the sum (nearly \$2,500,000) which so severely taxed the Egyptian treasury, was made under the guns of a British warship, the Benbow, which arrived at Alexandria this morning.

The check was accompanied by a brief note to protest that some of Britain's other demands delivered by Lord Allenby contained seven demands and threatened appropriate measures if they were not complied with within 24 hours. This time limit expired, and a new note was presented, demanding the payment of the indemnity by noon today.

**GOVERNMENT PLANS

MASON CITY, IA., AND  
CHASKA, MINN.**

(By United Press)  
New York, Nov. 24.—The American Beet Sugar company has exercised its option to purchase the Northern Sugar company, with a modern beet factory in Mason City, Iowa, and the Minnesota Sugar company, with a plant at Chaska, Minn. The purchase will be a cash transaction of \$22,900,000 for the Northern Sugar and \$1,500,000 to \$1,600,000 for the Minnesota Sugar company, a recently formed concern with undeveloped properties, which is jointly controlled by the Northern Sugar and Minnesota Sugar.

It is understood that H. A. Douglas, president of Northern Sugar and Minnesota Sugar companies, will become affiliated with the American Beet Sugar company in an executive capacity. According to tentative plans the minimum amounts to be paid shareholders are as follows:

\$117 a share for preferred stock and \$49 for the common share of Northern Sugar, and \$10 for the preferred and \$21 for the common stock of Minnesota Sugar company.

The principal properties of the American Beet Sugar Company are located in California, Colorado and Nebraska.

**GANGLAND IN  
CHICAGO AFLAME  
WITH NEW WARS**

**TANCL, "CZAR OF VICE," SHOT  
AND KILLED BY RIVAL  
GUNMEN**

**BEFORE CASHING IN, TANCL  
SHOOTS DOWN ONE OF HIS  
ASSAILANTS**

(By United Press)  
Chicago, Nov. 24.—The guns of gangland again roared their defiance of law, and the week-end toll includes Eddie Tancl, potentate of the underworld of Cook county. Tancl's death has again stirred the wrath of rival gangs and police anticipate the bloodiest war in the history of Chicago's underworld.

A week ago Dean O'Banion, leader of one gang, was shot to death. Since then three other gangsters have met death, the latest being Tancl, who was shot to death in his notorious Hawthorne Inn at Cicero, a suburb of Chicago. Tancl was known as the "Czar of Vice."

Yesterday two gunmen of a rival gang shot him, but in dying Tancl proved his courage by following his assailants to the street, shooting and perhaps fatally wounding one man and slightly wounding the other.

The more seriously wounded assailant is Myles O'Donnell, one of the five O'Donnell brothers who are said by police to head a powerful "beer syndicate." O'Donnell was shot down by Tancl 200 feet from the inn.

Tancl collapsed near O'Donnell, but not satisfied with having shot him, Tancl, with smoking empty gun, dragged himself to within striking distance of O'Donnell and pawed at him with the revolver.

**STRIPPING ON  
IRON RANGES**

**BELIEVED THEY WILL CONTINUE  
FULL BLAST THIS WINTER  
ON MESABA**

(By United Press)  
Duluth, Minn., Nov. 24.—Stripping operations will continue in full blast over the iron range as long as the weather permits this winter. The Oliver Iron Mining company will employ more men this winter in the Hibbing-Virginia region than last year.

Many other companies announced they would use full winter crews and operators believe prosperity will continue on the range throughout the season.

**Indian Mother in Court  
for Censuring Flappers**

St. Paul, Nov. 24.—Lizzie White Feather is no modern mamma. Mamma White Feather, who lives at 540 Canada st., believes in applying the ancient Indian methods to her two flapper daughters. It's tribal custom for the mother to talk and the Indian maidens to listen.

Mamma White Feather talked in a voice that could be heard from one tepee of an Indian village to another.

The landlord objected.

The police came.

And Mamma White Feather, appearing in police court charged with drunkenness, was released by Judge Olson with a warning.

**CATCH OF A  
CANDIAN FISHING  
FLEET WORTH MILLION**

(By United Press)  
Halifax, Nova Scotia, Nov. 24.—The 62 vessels comprising the Lunenburg fishing fleet have this year secured 170,425 quintals of fish, which have been sold for \$1,539,200.

That vest-pocket radio set ought to be a help. Maybe people won't have to stay home at night any more. — Indianapolis News.

**FRENCH LOAN IS  
OVERSUBSCRIBED  
A HALF MILLION**

(By United Press)  
New York, Nov. 24.—The \$100,000,000 French loan was oversubscribed \$55,000,000 after the bonds were offered for sale today and the books were closed.

**NEW EVIDENCE  
MAY LINK CRIME  
TO ONE OF MURDER**

**ANOTHER CLUE UNEARTHED IN  
COLUMBUS, OHIO, FURNACE  
MYSTERY**

**STAINS WHICH MAY BE BLOOD  
ARE FOUND NEAR THE  
FURNACE**

(By United Press)  
Columbus, O., Nov. 24.—New evidence, pointing more directly than ever to the possibility of murder in the furnace mystery, was unearthed today when Prosecutor John R. King and detectives made a thorough search of the Lutheran parsonage.

Stains which may be blood were discovered near the furnace in which Mrs. Addie Sheatsley's charred body was found.

Other stains, a reddish brown in color, were found in an asbestos pipe above the furnace door through which Mrs. Sheatsley's body passed into the firebox.

Several finger-prints were plainly discernible in the dust on another asbestos pipe.

King immediately ordered all of the marks and stains carved out and turned over to Charles Long, chemist, for analysis.

In the parsonage pathologists today burned the bodies of two guinea pigs, hoping through this experiment to learn something of the circumstances of Mrs. Sheatsley's death.

With King standing at his side, Dr. H. M. Brundage threw the bodies into the furnace and watched them burn.

The furnace fire was brought to approximately the same heat as that in which the pastor's wife was found. The guinea pigs were allowed to char until their flesh resembled that of the furnace victim and then were removed to Dr. Brundage's laboratory for further study.

**LIGHTNING IGNORES  
RADIO ANTENNAE**

(By United Press)  
Washington, Nov. 24.—Radio antennae are neither protection against lightning nor a menace, the Bureau of Standards announces after exhaustive tests.

Antennae need not be considered as potential inviters of lightning strokes, being in a class with other metal objects normally found about buildings such as metal gutters, down spouts, and wire clothes-lines, the bureau finds.

As commonly installed, they are of relatively small size, both in extent and in the diameter of the wire used. If grounded, the bureau says, or provided with a lightning arrester, they may afford a very slight gradual drainage of electricity as well as a lightning rod but a direct stroke is likely to fuse them and tear them from their fastenings on account of their small diameter.

The ground lead of an aerial constitutes a lightning rod having a single down conductor, whereas good lightning rod practice, the bureau believes, requires at least two down conductors electrically paralleled but as widely separated as possible.

**APPLE YIELD  
IS LARGE ONE**

(By United Press)  
Halifax, Nova Scotia, Nov. 24.—The Provincial Department of Agriculture estimates the apple yield of the Annapolis Valley at 1,500,000 barrels.

HURST LODGE"**

**IN CHICAGO KORETZ PROMOTED  
ALLEGED FICTITIOUS "BAY-  
ANO TRUST OF PANAMA"**

(By United Press)  
Chicago, Nov. 24.—Leo Koretz, alleged "Prince of Swindlers," will be returned immediately to Chicago from Halifax, Nova Scotia, for trial on charges of swindling wealthy merchants in Chicago out of sums variously estimated from \$2,000,000 to \$7,000,000. State's Attorney Robert E. Crowe announced today.

Koretz, who disappeared in December, 1923, was captured over the week-end at Halifax by John Sharbaro and William McSwiggan, two of Crowe's assistants. He waived extradition and decreed to return at once. Crowe was told in telegrams from his aides. Koretz wore a full, bushy beard, his principal disguise.

The man who gained the confidence of bankers, merchants, lawyers and retired capitalists and then, according to their charges, fleeced them out of millions in his great "Bayano Trust of Panama," was found in luxury on an estate near Halifax known as "Pinehurst Lodge." He had been admitted to the most exclusive society of the Canadian city, Crowe's men reported.

**COMMITTED FOR  
RETURN TO CHICAGO**

Halifax, N. S., Nov. 24.—Leo Koretz, notorious alleged swindler of Chicago, was arraigned before an extradition commissioner today and committed for return to Chicago.

Fifteen days are allowed for appeal but Koretz said he will not fight extradition. He admitted identity and that a prime facie case was charged in the warrant.

The commitment was reported to Ottawa for confirmation and it was understood Koretz will be taken back to Illinois in the near future.

**FRANCE MAKES  
RULING REGARDING  
AMERICAN CLAIMS**

(By United Press)  
Washington, Nov. 24.—The French government, reversing its position, has agreed that American claims against Germany for material losses, amounting roughly to about \$200,000,000, shall be made out of the reparations fund at the same rate of payment as accorded France, it was learned here today.

This agreement removes a misunderstanding between the two governments which almost had reached an embarrassing proportion. It gives the United States equal rights with the Allies under the reparations settlement.

**LOWER FREIGHT  
RATES ON PRODUCTS  
OF THE FARMS**

(By United Press)  
Washington, Nov. 24.—An agreement has been reached among senators for adoption of the resolution instructing the I. C. C. to consider lowering freight rates on agricultural products. Senator Capper, republican, Kansas, farm bloc leader, announced today.

A conference report on the resolution passed by both houses during the last session has been drawn up and will be submitted as soon as Congress reconvenes. This is an amalgamation of the Hoch resolution in the house and the Smith resolution in the senate which expressed the sense of congress that present rates are unfair to agriculture.

These are the days when a hunter is lucky if he brings himself home. — Indianapolis News.

MINNESOTA DOING  
EFFECTIVE WORK  
AMONG CHIPPEWAS

One of the most important projects in which the Minnesota Federation of Women's clubs is interested at the present time is securing funds for carrying on the Indian welfare work initiated in September, 1923. Mrs. J. E. Rounds, president of the state federation, and Mrs. Daniel Coonan, chairman of the division of social and industrial conditions are urging all the federated clubs to contribute some money to continue the work until arrangements can be made to place it on a permanent basis.

Mrs. Coonan has offered to go to any community in the state to explain the Indian welfare program. She addressed the federated clubs in

week and will speak at Dodge Center on November 28.

The treasurer of the state federation is carrying a separate fund for the Indian relief work and contributions of any size are welcome. It is suggested that each club give an Indian program to raise money for the fund. The amount that the federation secures will be matched by an appropriation from the Sheppard-Towner fund.

In September, 1923, following a visit through the Indian territory in this state, Dr. S. J. Crumline, director of public health relations of the American Child Health association proposed that the association deposit with the State Board of Health of Minnesota a sum of money sufficient when matched by the Sheppard-Towner fund to enable the Division of Child Hygiene to provide two nurses for public health work among the Indians. It was decided if the work in Minneapolis proved to be successful that the same methods would be adopted in other states with Indian populations.

Since October, 1923, two public health nurses, Miss Theodora Davis, and Miss Elizabeth Sherer, both of whom are of Chippewa extraction and who can speak that language, have been employed among the Indians at Cass lake, Leech lake and in the White Earth reservation. These nurses have made a marked success of their work. They have visited Indian mothers, given them instruction in the care of their babies, made arrangements for holding clinics among the tubercular patients, and organized classes for the young girls.

Dr. S. J. Crumline two weeks ago visited the White Earth reservation. He stated that this experiment in work among the Indians in Minnesota had been such a success that other states are making arrangements to adopt the same program.

Mrs. Walter McNab Miller of St. Louis, chairman of the division of public welfare in the General Federation, a few weeks ago stopped in the Twin Cities for a conference with Dr. A. J. Chesley of the state board of health, Mrs. Blanche La Du of the state board of control and Mrs. Dan-

iel Coonan in regard to the Indian situation in Minnesota. She stated that Minnesota was doing more effective public welfare work among the Indians than any other state in the union.

The Minnesota Federation of Women's clubs is now seeking to raise sufficient funds to continue this work until some permanent arrangement can be made, as the securing of a legislative appropriation. The arrangement made in September, 1923, provided for funds to carry on the work only until January 1, 1925.

**MINNESOTA DOING EFFECTIVE WORK AMONG CHIPPEWAS**

One of the most important projects in which the Minnesota Federation of Women's clubs is interested at the present time is securing funds for carrying on the Indian welfare work initiated in September, 1923. Mrs. J. E. Rounds, president of the state federation, and Mrs. Daniel Coonan, chairman of the division of social and industrial conditions are urging all the federated clubs to contribute some money to continue the work until arrangements can be made to place it on a permanent basis.

Mrs. Coonan has offered to go to any community in the state to explain the Indian welfare program. She addressed the federated clubs in Monticello on Tuesday of this past

week and will speak at Dodge Center on November 28.

The treasurer of the state federation is carrying a separate fund for the Indian relief work and contributions of any size are welcome. It is suggested that each club give an Indian program to raise money for the fund. The amount that the federation secures will be matched by an appropriation from the Sheppard-Towner fund.

In September, 1923, following a visit through the Indian territory in this state, Dr. S. J. Crumline, director of public health relations of the American Child Health association proposed that the association deposit with the State Board of Health of Minnesota a sum of money sufficient when matched by the Sheppard-Towner fund to enable the Division of Child Hygiene to provide two nurses for public health work among the Indians. It was decided if the work in Minneapolis proved to be successful that the same methods would be adopted in other states with Indian populations.

Since October, 1923, two public health nurses, Miss Theodora Davis, and Miss Elizabeth Sherer, both of whom are of Chippewa extraction and who can speak that language, have been employed among the Indians at Cass lake, Leech lake and in the White Earth reservation. These nurses have made a marked success of their work. They have visited Indian mothers, given them instruction in the care of their babies, made arrangements for holding clinics among the tubercular patients, and organized classes for the young girls.

Dr. S. J. Crumline two weeks ago visited the White Earth reservation. He stated that this experiment in work among the Indians in Minnesota had been such a success that other states are making arrangements to adopt the same program.

Mrs. Walter McNab Miller of St. Louis, chairman of the division of public welfare in the General Federation, a few weeks ago stopped in the Twin Cities for a conference with Dr. A. J. Chesley of the state board of health, Mrs. Blanche La Du of the state board of control and Mrs. Dan-

iel Coonan in regard to the Indian situation in Minnesota. She stated that Minnesota was doing more effective public welfare work among the Indians than any other state in the union.

The Minnesota Federation of Women's clubs is now seeking to raise sufficient funds to continue this work until some permanent arrangement can be made, as the securing of a legislative appropriation. The arrangement made in September, 1923, provided for funds to carry on the work only until January 1, 1925.

# SCHOOL CARNIVAL IS GLOWING SUCCESS

Crowds Visit Lincoln School, Guests of Lincoln-Washington Parent Teachers Association

## EVERY BOOTH PATRONIZED

Two Big Main Shows Included Vaudeville in Assembly Room, Minstrel Show in Basement

The members of the Lincoln-Washington parent teachers association characterize their annual carnival, held at the Lincoln school on Saturday evening, as a grand success, and the crowds who visited the school will attest to all that, and more. The association had planned on taking care of a big attendance, but were wholly unprepared for the exceptionally large number who came early and stayed late. The various shows and other attractions were so liberally patronized that more performances were given than were originally planned, and the booths sold out their stocks early, and could have sold much more if merchandise had been available.

Two big main shows were featured, the vaudeville in the assembly room, and the minstrel show in the basement. Both were composed entirely of local talent, but the performers handled their parts like seasoned veterans, proving themselves artists in their various lines.

The vaudeville opened with a one-act comedy, "Getting Rid of Father" in which the players were all juveniles, Arden Miller carrying the role of the rube parent in an excellent manner. Little Lucille Russell, responded to several encores as the youngest Hawaiian dancer in America, with a wriggle all her own that would have made a native Hula girl green with envy.

Mr. Mumble successfully sparred a very persistent insurance agent, in a vocal encounter over the subject of life insurance. The butterfly kiddies, seven little girls forming a pretty ballet, were recalled to repeat their act, and Miss Mayme Scallion staged an original song and dance that kept her audience in an uproar. Mrs. Mal Clark, with Mrs. Walter F. Wieland at the piano, and M. E. Davis, each rendered solos that completed the excellent vaudeville program.

"Don't miss the Minstrel show" was the admonition given by everyone that saw the Alabama artists perform, and from the crowds that fought for standing room in the show, this advice was heeded. Each member of the blackface troupe would have been a successful candidate for a place in Lew Dockstader's company. There were clever end men, an interlocutor, banjo fiends, negro clog dancers and singers. It took no great play on the imagination to believe that one were down in cotton land listening to real colored folks. These minstrels displayed so much talent that they have been asked to appear in Ironton soon.

Other features, all of which drew their full share of the patronage, included Madam Zoe, seer, who told her patrons all about the past, present and future, the beauty parlor, the curiosity shoppe, the fish pond, the grab bag, the bathing beauties, shadow pictures, lucky dolls, the candy counter, the lunch room and the bake shop, where home made cakes were offered for sale.

The crowds entered into the true carnival spirit, which contributed much to the success of the event. The association feels very grateful to all who patronized the carnival, to all who worked so faithfully and gave of their time and talents, and to the business men of the city, who contributed so generously when solicited.

The merchants who made donations are as follows: The Brainerd Hardware Co., the Princess Candy Kitchen, the Economy Drug Co., L. E. Babcock market, Mrs. M. Kracher, the Grey Shoppe, Kaupp meat market, Elektrik Maid Bakery, Grandelmeier millinery, Model meat market, Patek Furniture Co., Mrs. George West, Mrs. Arthur Ludwog, Eagle Provision Co., J. C. Penney Co., Mrs. Belhouse, Bourquin grocery, Brainerd Creamery Co., D. E. Whitney, B. C. McNamara, Folsom Music Co., New Park theatre, Sorenson Jewelry, Brainerd Office Supply Co., Red Owl, Johnson Pharmacy, the Pennant store, Home Bakery, Brainerd Co-operative Merc. Co., Oberst and Durham, S. Vanek, Hall Music House, Alderman-Maghan Co., Skauge Drug Co., Judd Wright & Son, Husted and Scallion, Louis Hostager, Kwalit Grocery, the Singer store, Brenneman Bakery, W. E.

Erickson, Lyonais & Baker, O. F. Larson, DeSmith's, Northern Home Furnishing Co., Perry Hardware Co., McColls Bazaar, J. F. Murphy, Dunn drug store, Olympia Candy Kitchen, F. W. Woolworth Co., Brainerd Candy Kitchen, George Murphy, Anderson & Engbritson, Army Surplus store, and Taylor's Sales Service.

The proceeds realized from the carnival will be used by the parent-teachers association in community work, and for providing milk to underweight children attending that school.

## Card of Thanks

The Parent-Teachers association of the Lincoln-Washington school expresses its thanks and appreciation to all who helped to make the carnival a success, and to those who so kindly contributed, to those who worked so faithfully and to those who patronized the event so liberally.

Lively's stock of Ford parts is complete in every detail. Open day and night.

## GERMANY HAS DIFFICULTY WITH NEW CURRENCY

(By United Press)  
Washington, Nov. 24.—The German public, accustomed to the bloated currency of the paper mark, has not yet readjusted itself to the sound values of the new currency. As a result, American Trade Commissioner Douglas Miller reports to the Department of Commerce, the average purchaser pays far beyond the fair value of most everything he buys in Germany today.

This deflation at home of the value of the gold reserve currency which the Allies helped the German government create through the Dawes plan and the recent loan had mystified European observers of the department here. They figured from an economic basis and could not account for the huge increase from the manufacture to the retail value of commodities in Germany. They neglected the human equation in their calculations, Miller points out.

"Vivid recollections of war-time difficulties in the procurement of staple commodities," Miller states, "still linger in the German mind and amply account for the attitude which retail houses can assume toward their clientele."

"German currency has so long been on a fictitious paper basis that the average purchaser had lost all appreciation of the prices justified in terms of staple money. This utter lack of the new currency permitted the merchants to take advantage by exacting unjustified prices."

The high profits of the retail trade in Germany because of these unusual circumstances have attracted many with small capital. The multiplication of shops, Miller said, with a corresponding drop in the volume of business done by each, has added to the price which the consumer must pay. Each new shop means added overhead which must increase the selling price.

Similarly, the doubling of the number of trading and producing firms between 1913 and this year has added to the overhead of production. With no substantial increase in the volume of business it was pointed out that twice the number of firms meant that each concern did half as much business as formerly and that in the end the consumer must pay.

Miller blamed taxation in part for increasing the manufacturing costs of German products.

"The German manufacturer," Miller said, "paying the lowest wages in any one of the leading industrial

## TRIUMPH AS ERROLLE, THE HE'S JUST A PLAIN SMITH

Ralph Errolle, the American tenor who was acclaimed at his debut in "Romeo and Juliet" at the Metropolitan Opera House, New York City recently, was born a Smith. His father is a member of the Chicago Board of Trade and his mother a distant relative of Abraham Lincoln. A brilliant future in grand opera is predicted for this new artist.

countries of Europe, is still unable to market goods on a competitive price basis. Heavy taxes, particularly the turnover tax of two per cent, and over-organization are seen as outstanding reasons for this situation."

The trouble about a business revival is that the sinful consumer is always expected to put his last dollar in the collection plate.—Columbia Record.

Energie Gasoline—67 per cent faster pickup; 98 per cent quicker starting. Try it these cold mornings.

## Trained Ears Detect Faults in Machinery

Brass workers hear "temper," dull tools and noises imperceptible to ordinary ears. "Trained hearing has saved us thousands of dollars," says a writer in the official publication of a firm of brass manufacturers of Waterbury, Conn.

Some time ago it was discovered that there were many employees of the company, both men and women, whose sense of hearing was so acute that in spite of the deafening roar of machinery, they could hear noises, or the absence of noises, that the ordinary person would never notice. In every case it was discovered that this unusual gift was not inherited, but acquired.

It didn't come to them suddenly or easily, but only after years of experience and familiarity with their work, surrounded by the same machines, that their hearing would develop this delicate keenness that gave them the power to notice the smallest sound amid other noises. A curious thing was found, that the ability is more common where factory noises are deafening. It is the overpowering noise itself that makes these trained ears so delicate that they can hear what would be inaudible to others, observes the Literary Digest.

## Magical Power Seen in Shorthand Writing

The ancients appear to have regarded their shorthand writers as possessed of a faculty closely akin to magic. Ausonius, a poet of the Fourth century, addressing a shorthand writer, says: "Your hand, of which the movement is hardly perceptible, flies over the waxy surface; and though my tongue runs over long phrases, you fix my ideas on your tablets long before they are worded. I wish I could think as rapidly as you write! . . . Who has revealed to you what I was meditating? How many thefts does your hand make in my soul?"

There is no evidence to show that the speed of ancient shorthand writers was at all comparable with that of our own day. They wrote upon waxed tablets and no specimen of their art appears to have been preserved. For centuries there was no shorthand in the world. It was not revived until 1588, when Dr. Timothy Bright, a Yorkshire parson, published a book,

"Characterie: an Arte of Shorte, Swift and Secrete Writing by Character." This system was simply a collection of arbitrary signs for a large number of common words. There was no attempt to provide a shorthand alphabet, says the Manchester Guardian.

## Rhymes on Rings

While some old customs are dying out, others are being revived. Among the latter is that of engraving mottoes and proverbs on lovers' rings. Rings thus engraved were formerly called "posy rings," and some of the inscriptions were very quaint.

For instance, how would the following appeal to the "modern miss": My love is fixt, I will not range, I like my choice too well to change. Among the many other mottoes which adorned the rings of oldtime lovers were:

"In thee, my choice, I do rejoice," "This and the giver are thine forever," "Of all the rest I love thee best," "God for me appointed thee," "I joy in thee, joy thou in me," and "Providence divine hath made thee mine."

## Freakish Trees

An explorer in the forests of northern India has found a tree that gives an electric shock to any one who touches it. The intensity of the shock varies with the time of day, the current being at its strongest at 2 p. m.

Few people realize the extraordinary

properties with which nature has endowed some trees. In Nubia, for example, there is a tree, the sofar, that plays tunes, a startling effect due to the boring of numerous insects at the base of the young shoots. The wind, playing through the tiny apertures, produces a series of flute-like notes.

A Canadian prairie tree, known as the compass tree, is an infallible guide to travelers, the edges of its leaves always pointing north and south.

In Arizona there is a tree which, on being touched, actually ruffles its leaves and tries to scare off the intruder by emitting a sickening odor.

## TONIC FOR OUR IMAGINATION

IMAGINATION is what is lacking in most pity; with that ingredient left out pity is always insipid and sometimes nauseating. But imagination is a thin vein in the most of us, and we are not very sorry for many people because we can't make real to ourselves in our protected lives either their sufferings or their fears.

Occasionally when an awful calamity happens, we get waked up to imagining what it must be like, and then for a while we simply overflow with bounty for the victims. It was that way, we remember, when the Armenian massacres, soon after the outbreak of the Great War, left thousands of tiny children wandering through mountains and over deserts uncared for and undefended. Our country then gave millions for their rescue.

But when the wonderful philanthropy of Near East Relief gathered these pitiful child wanderers into its orphanages and gave them shelter, food and education, the horror of it passed into tranquility, and imagination failed us. The children were safe, and very largely the American people ceased to give. But as anybody knows who gives even a moment's thought to the matters, these tragic children need food just as imperatively in asylums and schools as they did in the desert.

It is a wise catering to human nature's deficiencies when, to awaken our imagination again, the Near East organization asks us on its Golden Rule Sunday, December 7, to eat the same kind of scant and frugal dinner which these orphans have to be content with all the while—wholesome no doubt, but lacking the blue-ribbon cookery that gives tang to appetite ordinarily in our homes.

That experience, accepted, ought to make us all feel that we are again in the very presence of these orphans, and such visualization should revive the generosity with which this country formerly gave to their necessities.

## EUGENE FIELD

CHARLES H. DENNIS, managing editor of the Chicago Daily News, has written a biography of Eugene Field, entitled "Eugene Field's Creative Years." Dennis was the first to read Field's "Little Boy Blue," and for years he was Field's managing editor. As such, he passed on all the copy Field turned out for the paper, and he had to weigh every line, for Field's whimsical humor sometimes packed "dynamite" in unsuspecting lines. Much mention is made of Field's poetry in the review published and not a word is said of his prose effusions which ran as a column of "Sharps and Flats" in the Chicago Daily News.

It was in those lines, no doubt, that Dennis had to sit tight, look sharp and contemplate the after effects, if any. The column Field wrote has never been duplicated and any imitator would undoubtedly fall "flat."

In that column he embodied his philosophical notations, his comments on things, and his "news" items, and many others, written in his rare, whimsical humor, rested on rather light, vapory, airy foundations.

In those days people grabbed their copies of the Daily News, and the first thing scanned was generally Field's column. His observations on actors, and other noted people, some of whom he had never met, were philosophic and sounded really more genuine than if he had ever met them.

Dennis, as the friend and managing editor of Field, probably sat many a day as uneasily on the bed of the "Sharps and Flats" as a duck on a nest of hen eggs. We have read a book review of his work of Field's in the Minneapolis Tribune and we believe the book one of the finest contributions to Field lore, written by one who thoroughly understood and loved Eugene Field.

## YOU SHOULD BE VACCINATED

VIRULENT smallpox in St. Paul, the "black" kind, again calls to mind the necessity of vaccination. Four unvaccinated people, exposed to the disease, fell prey recently. A Wisconsin man visiting a family in St. Paul, fell ill with black smallpox, and in turn a plumber who had been working at the house, the undertaker's assistant preparing the body, and the father of the family contracted it and died.

Be vaccinated and protect your family and your neighbors. The fee is a trifling one and school children here were vaccinated gratuitously. One should vaccinate until "it takes." A St. Paul man is said to have been vaccinated ten times before "it took."

THERE is such a thing as demanding too much alimony from a divorced man. Every man is entitled to save something from his income, Judge Molyneux has ruled in cutting the alimony being paid by a divorced man in Minneapolis. "No man ought to be required to spend every cent of his income," said the judge in his decision. "He ought to be permitted to save a little of it."

THE Minneapolis Trades and Labor assembly has resolved to bar all Communists, members of the I. W. W. or other revolutionary organizations from holding office in the assembly. The resolution was adopted without a dissenting vote.

"GOPHER STATE" brand potatoes are to be featured on Soo Line dining car menus. The advertising value is worth something, as nothing is so thoroughly studied as a menu card in a diner.

AND now the little Christmas tree finds a defender. A New York man claims it is poor policy to teach children to uproot such trees for Christmas and then teach them to plant a tree next year.

HEAVY vote and crowded precincts has caused Red Wing to increase its voting precincts from eight to ten in order to remove the objections complained of.

BETTER potatoes instead of more of them is the aim of the Minnesota Potato Growers Exchange.

THE DISPATCH will issue no daily on Thanksgiving Day Thursday, November 27.

## Atlantic City Hotel Destroyed by \$300,000 Fire in Which Aged Man and Woman Lost Their Lives

The victims were Mrs. Caroline A. Cook, 79 years old, and James Bennett, 80, both of New York City. They were trapped in the Hotel Bothwell, the ruins of which are shown above. Fanned by a gale, the flames leaped to the Hotel Senator and then across the Boardwalk to the Steel Pier, and for a time it was feared that the firemen would be unable to get the fire under control.

## "WHY I TRADE IN BRAINERD" ESSAY CONTEST DEC. 5

It is my duty as citizen. I can see what I'm buying and know the business man who is getting the goods for me.

Delivered to my home at no additional cost.

Sending money to Minneapolis is skinning Brainerd all the time causing higher taxes, no improvement made.

Let's all join together in one common cause and buy our goods in Brainerd, the things we got to have and we will have a better Brainerd than we ever had before.

It means lower taxes and more improvement made.

1501 Rosewood St., S. E.  
Brainerd, Minn.

## SULPHUR IS BEST TO CLEAR SKIN

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Mentho-Sulphur says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation.

Mentho-Sulphur heals eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Rowles Mentho-Sulphur may be obtained at any drug store. It is used like cold cream.—Adv't.

## Milestones of Service

THIS rioting, pushing, fast-stepping age of ours, with all its complexity, concentration and achievements, never could have attained its present development had it not been for petroleum and the long list of useful products which stem from this one widely distributed raw material.

Today, when almost everything we do, from the felling of trees to the keeping of accounts, is accomplished with mechanical assistance, the refining of crude oil and the compounding of the numberless products derived from this base is one, if not the most essential of all industries.

From crude petroleum come the most readily procured, best and cheapest lubricating oils and greases, and from the same source we get gasoline, the most economical, most mobile and most compact source of power yet discovered.

In the upbuilding of this great industry the Standard Oil Company (Indiana) has been a pioneer; an advanced worker on the forefront of progress.

Today, skillful, highly trained men working with every facility which science, or their own ingenuity can suggest, are striving to perfect still further the scores of useful products going to the public under the brands of the Standard Oil Company (Indiana).

Throughout the ten middle western states in which this company maintains distributing facilities, is an ever-growing organization working, building, to insure every person in the territory getting standardized, superior quality petroleum products he needs, when and where he wants them.

And always the company is looking forward, building and training for the years to come.

Office boys of thirty years ago are Directors of the Standard Oil Company (Indiana) today—office boys of today are being schooled, trained and developed for places on the Board thirty years from now.

The Standard Oil Company (Indiana) is proud of the record it has made in keeping ahead of the times, and believes that each progressive step has been marked by a milestone of service to the thirty million people of the Middle West.

## AIR PIONEER SEES NEW ERA COMING

### SANTOS-DUMONT BELIEVES THAT PLANES WILL EVENTUALLY REPLACE ZEPPELINS

Paris, Nov. 24.—Why air communications between Europe and North or South America have more chances to be permanently assured some day by big airplanes rather than airships of the ZR-3 type has been explained by the famous Brazilian aviator, Santos-Dumont, in an interview given to the United Press.

Santos-Dumont, who 18 years ago, started on a plane he built in France and covered 200 meters over the Bagatelle grounds, near Paris, has come again to France recently from Brazil.

For the first time in 10 years he plans to spend the winter here, if he can stand the climate. Santos-Dumont, as one of the promoters of aviation, can easily glance over the progress made since he established an actual record at a time when yards meant as much as a thousand miles today.

"I admire the airships like the ZR-3, which so successfully crossed the Atlantic," said Dumont, "but I don't think the same feat could be done weekly, even monthly, without serious accidents.

"Among other things, Zeppelins, owing to the fact that they are long balloons, offer more surface to attacks of the elements such as wind and lightning. Remember the catastrophe to the French Dirigible Dixmude, an ex-German airship. I am sure a waterplane of less power than the Dixmude would have escaped, while the airship had absolutely no means to avoid being wrecked. The question of landing will always be a very difficult one for air monsters.

"Nevertheless, I have no doubt that sooner or later a Zeppelin will go from Europe to South America, possibly from Spain. Very likely, this Zeppelin will fly over Rio and reach Buenos Aires. But should the same airship or others try to make the trip regularly, I am afraid nearly all this fleet will be destroyed, either in mid-Atlantic or in the south of Brazil, where there are terrible windstorms that no Zeppelin could stand.

"I believe planes much similar to those being used at present, but built stronger and with slight improvements have many more chances of becoming the ideal means of fast traveling between the old and new continents.

"Many reasons are in favor of planes, waterplanes of course, especially types which, as some suggested, may descend anywhere and be transformed into boats. Immense progress has already been done in that respect, and this is why I say, comparatively little remains to be done to the structure of planes for use in world trips.

"Where, in spite of much work and researches which have been very successful already but insufficient, there is still much to modify in the mechanical part, especially the motors. Motors are far from being perfect, and precisely what will be needed on transatlantic planes is excellent motors which it may take years to get in such shape that there cannot be any trouble in any circumstance.

"In view of all this, I think the inauguration of a passenger service to and from North and South America should be delayed until there are less risks. My idea would be for services first on rather light waterplanes which would carry mail exclusively. Much could be learned then without great danger, and the experience would furnish plenty of material for improvements, which, when motors have been sufficiently perfected, would enable to build big machines that would safely carry passengers across, at least as safely as ships."

In concluding the interview, Santos-Dumont praised most highly the Portuguese aviator Sacadura Cabral and Countinho, who were the first to fly from Lisbon to Rio de Janeiro, and the Americans who completed the world flight.—St. Paul Daily News.

#### Love for Animals

Interest in animals is so natural with children that it is usually a simple matter to teach love and sympathy for them even where it does not already exist. In presenting an animal that is "new," teachers have splendid opportunity to train powers of observation and to supply a class with a mine of material, says Nature Magazine. The otter as a fur bearer, as the courageous protector of his life and liberty, as a fisherman, and as a special stunt artist is bound to delight the children.

Matthew Betz, Blanche Sweet and Warner Baxter in "Those Who Dance."

#### Theme of New Ince Picture World Wide in Interest

A story of overwhelming interest to every American of the present day has been told by Thomas H. Ince in his most recent production, "Those Who Dance," a First National release.

With an exceptionally strong cast including Blanche Sweet, the "Anna Christie" of the recent triumphant screen production; Bessie Love and Warner Baxter, the producer has turned to an entirely new field for his latest drama. Without touching on the moral side of the question, he has told the story of liquor, weaving upon a theme of nationwide interest, in fact worldwide interest, one of the most gripping dramas of the season.

Ever since the passage of the Volstead law the main topic of conversation at social gatherings, over the breakfast table and in the columns of the daily press has been the prohibition question. The situations which have been evolved from the attempts at enforcement and evasion of the law are not only dramatic but tremendously picturesque. Up to the present time, however, no producer has presented the liquor story.

The story, laid for the most part in New York's underworld, has permitted the introduction of such novel types as the highjacker, a strictly modern product who preys upon the bootlegger. This picture will be shown at the New Park tonight, Tuesday and Wednesday.

#### Life at Hollywood Exposed to World in Glyn's Story

Patrons of the Lyceum are in for a genuine surprise when they witness "The World's A Stage," by Elinor Glyn, showing at this popular play house on Tuesday and Wednesday.

There have been screen plays, but never a screen play like this one. In the first place it is different. The author holds the mirror up to life—the life of a screen actress in Hollywood, and paints a wonderfully vital and true canvas of the hopes and trials, illusions, dreams, sorrow and happiness of the average screen star.

#### Making Lead Pencils

To make the wood-a tube in which the lead in a pencil is incased, the manufacturer cuts out a board about seven inches long, the width of six pencils, and as thick as half a pencil in diameter. With a machine he then shapes it into six semi-rounded or semi-hexagonal sections, and grooves one side to hold the lead. When the lead is inserted, the halves are glued together. The "lead" in a pencil is composed of graphite.

#### Perpetual Motion

Making hay while the sun shines and raising mushrooms in the dark.—Kansas City Star.

Betty Compson is Great in "Miami"  
If you don't go to the Lyceum tonight, you'll be missing one of the best pictures the screen has had in a long time. We speak of "Miami," in which Betty Compson has the leading role. The title and the star are enough to tell you that the picture is great but when we say that it's an Alan Crosland production, you know it's a standard setter.

There are society dramas and society dramas. Unless we are very

BETTY COMPSON in "MIAMI"  
Distributed by Hodkinson

much mistaken, "Miami" is going to serve as a basis for comparison henceforth. It has some of the most lavish sets and beautiful exteriors we have ever seen. There is a gorgeous gambling resort, palatial homes, hotels and yachts, gowns galore and sports of all kinds.

Enegree is true gasoline—not doped. Next in grade to the highest test aviation gasoline. 1251f

#### Sure You Eat Corn

Do you realize how the corn crop affects you? A probable shortage of good seed corn in some sections is predicted by the United States Department of Agriculture in consequence of the unusually late spring and continuous cool weather, factors, which have caused corn to be very late.

How much do you know about corn which took the place of the gold the white man was hunting for when he came to these shores. Although considerable quantities of corn are used directly for human consumption it is not for this purpose that corn is grown on more land

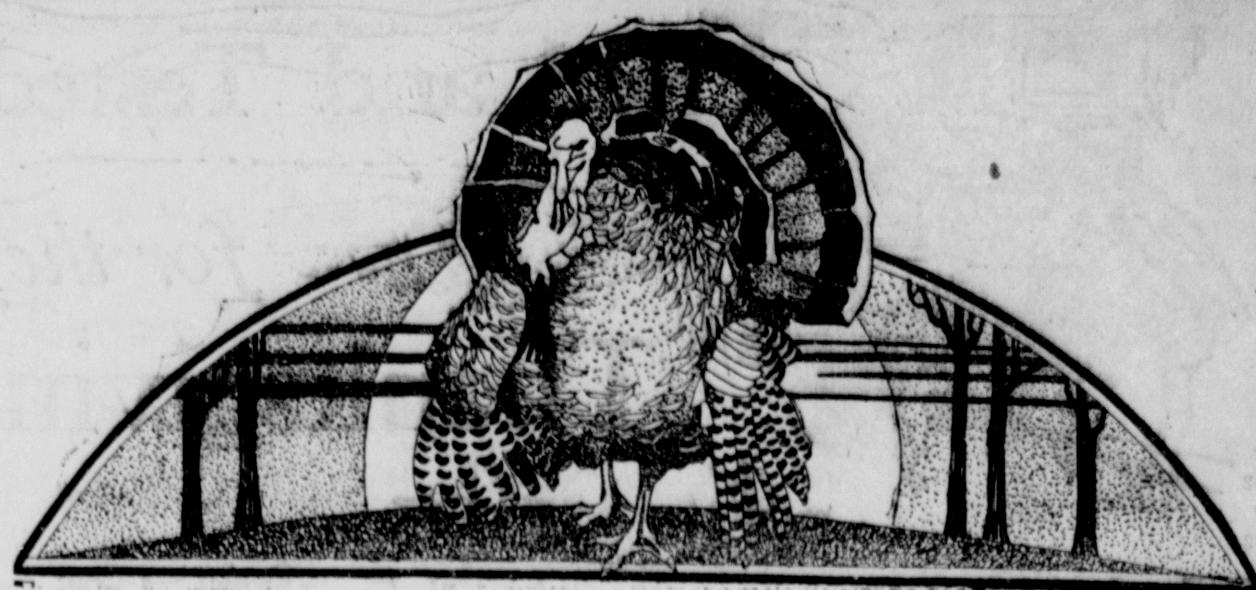

than any other cultivated crop in the United States. To hams, bacon, and other pork products is where most of the corn goes, says an American Nature Association bulletin which points out that yearly half of the crop is fed to swine on farms. About half of the remainder is fed to cattle and horses.

#### BILIOUSNESS

Inactive liver, sour stomach, sick headache, constiveness, destroy both mental and physical efficiency.

These disorders easily yield to

### Existing Conditions

It is estimated there are 1,000,000 diabetics in the nation, and the condition is steadily increasing. Of the 22,000,000 school children in the nation, 16,500,000 are suffering from physical defects! Nearly half the nation is subnormal according to Secretary Weeks, resulting in an economic loss in excess of \$1,500,000,000 annually! The annual drug bill for the nation exceeds \$500,000,000! Constipation is so universal that it may be looked upon as the normal condition of civilized man! Defective teeth are so universal that that condition too may be looked upon as the normal condition of civilized man! What is responsible for these conditions affecting practically every civilized being? Surely and only a universal cause. The denatured food of civilization is at the root of it all. What shall we do to be saved? Obey the natural law—obey or perish.

## AIR PIONEER SEES NEW ERA COMING

### SANTOS-DUMONT BELIEVES THAT PLANES WILL EVENTUALLY REPLACE ZEPPELINS

Paris, Nov. 24.—Why air communications between Europe and North or South America have more chances to be permanently assured some day by big airplanes rather than airships of the ZR-3 type has been explained by the famous Brazilian aviator, Santos-Dumont, in an interview given to the United Press.

Santos-Dumont, who 18 years ago, started on a plane he built in France and covered 200 meters over the Bagatelle grounds, near Paris, has come again to France recently from Brazil.

For the first time in 10 years he plans to spend the winter here, if he can stand the climate. Santos-Dumont, as one of the promoters of aviation, can easily glance over the progress made since he established an actual record at a time when yards meant as much as a thousand miles today.

"I admire the airships like the ZR-3, which so successfully crossed the Atlantic," said Dumont, "but I don't think the same feat could be done weekly, even monthly, without serious accidents.

"Among other things, Zeppelins, owing to the fact that they are long balloons, offer more surface to attacks of the elements such as wind and lightning. Remember the catastrophe to the French Dirigible Dixmude, an ex-German airship. I am sure a waterplane of less power than the Dixmude would have escaped, while the airship had absolutely no means to avoid being wrecked. The question of landing will always be a very difficult one for air monsters.

"Nevertheless, I have no doubt that sooner or later a Zeppelin will go from Europe to South America, possibly from Spain. Very likely, this Zeppelin will fly over Rio and reach Buenos Aires. But should the same airship or others try to make the trip regularly, I am afraid nearly all this fleet will be destroyed, either in mid-Atlantic or in the south of Brazil, where there are terrible windstorms that no Zeppelin could stand.

"I believe planes much similar to those being used at present, but built stronger and with slight improvements have many more chances of becoming the ideal means of fast traveling between the old and new continents.

"Many reasons are in favor of planes, waterplanes of course, especially types which, as some suggested, may descend anywhere and be transformed into boats. Immense progress has already been done in that respect, and this is why I say, comparatively little remains to be done to the structure of planes for use in world trips.

"Where, in spite of much work and researches which have been very successful already but insufficient, there is still much to modify in the mechanical part, especially the motors. Motors are far from being perfect, and precisely what will be needed on transatlantic planes is excellent motors which it may take years to get in such shape that there cannot be any trouble in any circumstance.

"In view of all this, I think the inauguration of a passenger service to and from North and South America should be delayed until there are less risks. My idea would be for services first on rather light waterplanes which would carry mail exclusively. Much could be learned then without great danger, and the experience would furnish plenty of material for improvements, which, when motors have been sufficiently perfected, would enable to build big machines that would safely carry passengers across, at least as safely as ships."

In concluding the interview, Santos-Dumont praised most highly the Portuguese aviator Sacadura Cabral and Coutinho, who were the first to fly from Lisbon to Rio de Janeiro, and the Americans who completed the world flight.—St. Paul Daily News.

#### Love for Animals

Interest in animals is so natural with children that it is usually a simple matter to teach love and sympathy for them even where it does not already exist. In presenting an animal that is "new," teachers have splendid opportunity to train powers of observation and to supply a class with a mine of material, says Nature Magazine. The otter as a fur bearer, as the courageous protector of his life and liberty, as a fisherman, and as a special stunt artist is bound to delight the children.

Matthew Betz, Blanche Sweet and Warner Baxter in "Those Who Dance"

#### Theme of New Ince Picture World Wide in Interest

A story of overwhelming interest to every American of the present day has been told by Thomas H. Ince in his most recent production, "Those Who Dance," a First National release.

With an exceptionally strong cast including Blanche Sweet, the "Anna Christie" of the recent triumphant screen production; Bessie Love and Warner Baxter, the producer has turned to an entirely new field for his latest drama. Without touching on the moral side of the question, he has told the story of liquor, weaving upon a theme of nationwide interest, in fact worldwide interest, one of the most gripping dramas of the season.

#### Life at Hollywood Exposed to World in Glyn's Story

Patrons of the Lyceum are in for a genuine surprise when they witness "The World's A Stage," by Elinor Glyn, showing at this popular play house on Tuesday and Wednesday. There have been screen plays, but never a screen play like this one. In the first place it is different. The author holds the mirror up to life—the life of a screen actress in Hollywood, and paints a wonderfully vital and true canvas of the hopes and trials, illusions, dreams, sorrow and happiness of the average screen star.

FOR SALE ADS—CALL 74

Ever since the passage of the Volstead law the main topic of conversation at social gatherings, over the breakfast table and in the columns of the daily press has been the prohibition question. The situations which have been evolved from the attempts at enforcement and evasion of the law are not only dramatic but tremendously picturesque. Up to the present time, however, no producer has presented the liquor story.

The story, laid for the most part in New York's underworld, has permitted the introduction of such novel types as the highjacker, a strictly modern product who preys upon the bootlegger. This picture will be shown at the New Park tonight, Tuesday and Wednesday.

#### Making Lead Pencils

To make the wood-a tube in which the lead in a pencil is incased, the manufacturer cuts out a board about seven inches long, the width of six pencils, and as thick as half a pencil in diameter. With a machine he then shapes it into six semi-rounded or semi-hexagonal sections, and grooves one side to hold the lead. When the lead is inserted, the halves are glued together. The "lead" in a pencil is composed of graphite.

#### Perpetual Motion

Making hay while the sun shine and raising mushrooms in the dark.—Kansas City Star.

Betty Compson is Great in "Miami"  
If you don't go to the Lyceum tonight, you'll be missing one of the best pictures the screen has had in a long time. We speak of "Miami," in which Betty Compson has the leading role. The title and the star are enough to tell you that the picture is great but when we say that it's an Alan Crosland production, you know it's a standard setter.

There are society dramas and society dramas. Unless we are very

BETTY COMPSON in "MIAMI"  
Distributed by Hodkinson

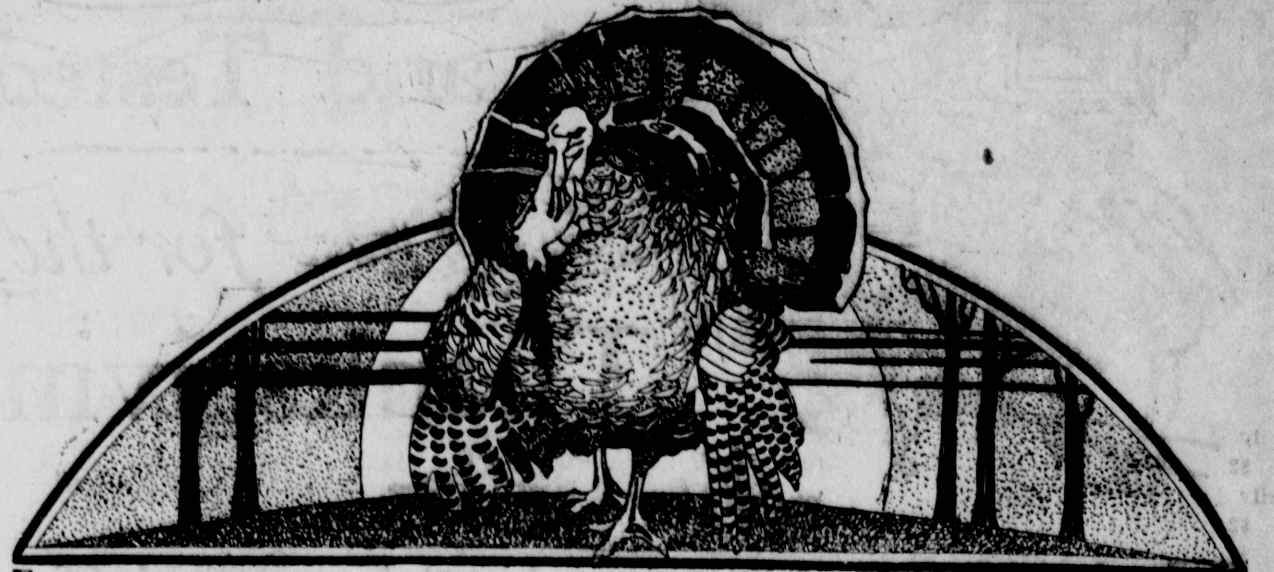

much mistaken, "Miami" is going to serve as a basis for comparison henceforth. It has some of the most lavish sets and beautiful exteriors we have ever seen. There is a gorgeous gambling resort, palatial homes, hotels and yachts, gowns galore and sports of all kinds.

Negreee is true gasoline—not doped. Next in grade to the highest test aviation gasoline. 125fr

# Tried and Tested Recipes for the Thanksgiving Table

AS the 27th of November approaches, the Thanksgiving Dinner becomes a matter of paramount importance in the mind of the housewife who is always alert for new ideas in the culinary art. Here are some tried and tested recipes for the Thanksgiving table, prepared by a home economics expert of long experience, which are sure to make the occasion double cause for rejoicing.

## Chicken Pie (Southern Style)

Cook chicken until tender. Remove meat from the bones. Thicken the gravy. Line a deep baking dish with the following pastry, leaving enough to cover the top:

2 cups Flour 1 Egg beaten  
1/2 cup Crisco 1 tablespoon  
ice water Lemon Juice  
1/2 teaspoon Salt

Sift flour and salt; cut Crisco in with two knives. Add gradually the lemon juice and egg mixed together. Add enough ice water to hold the mixture together for rolling. When the baking dish is lined with the pastry put in a layer of chicken, then a layer of sliced boiled carrots and small boiled white onions. Season to taste; add another layer of chicken and so on until the dish is filled. Cover with gravy. Roll the rest of the pastry; cover, pressing edges together closely and make a few slits in the top to allow steam to escape. Bake in hot oven, 450 degrees, until done.

## Fluffy Biscuits

2 cups Flour 1/2 teaspoon Salt  
2 teaspoons 2 tablespoons  
Baking Powder Crisco  
1/4 cup Milk

Sift together four times, flour, baking powder and salt. Mix Crisco in very lightly with fork. Add milk slowly; roll out or pat with hands on floured board to about one inch thickness. Handle as little as possible. Cut with biscuit cutter first dipped in flour. Bake in hot oven, 375 degrees, twelve to fifteen minutes.

## Caramel Sweet Potatoes

With a lovely place; without smoke or scorching when fried as directed.

4 sweet Potatoes  
hot Crisco

Boil the potatoes, peel and then cut them lengthwise in halves. Fry in skillet in hot Crisco. While frying, sprinkle generously with sugar on both sides.

## Crisco Plum Pudding

An old English Plum Pudding. It is delicious and will keep a long time when made as directed.

1 cup Crisco 1/4 cup Fruit  
1/2 cup granulated Juice, any kind  
Sugar 1 cup Flour  
4 Eggs 2 teaspoons  
1/2 cup Milk Baking Powder  
(hot or scalded) 1 teaspoon Salt  
1 cup seeded 1 teaspoon  
Raisins, cut fine Cinnamon  
1/2 cup Currants 1/2 teaspoon  
1/2 cup chopped Nutmeg  
Figs 1/2 teaspoon

2 ounces Citron  
cut fine 1/2 teaspoon Mace  
Enough fresh Bread Crumbs  
to make one cupful when moistened  
with 1/2 cupful Milk.

Cream the Crisco and sugar, add egg yolks well beaten. Add the bread crumbs when cool. Then the fruit juice and fruit. Sift together remaining dry ingredients and last stir in egg whites beaten stiff. Put in greased mold, cover and steam five hours in covered steamer over kettle of hot water. Fill mold only three-quarters full to allow for rising while steaming.

## Special Pie Crust

This recipe makes a tender, flaky crust which is especially fine for mince and pumpkin pies.

## For a Two-Crust Pie

2 1/2 cups Flour  
1 teaspoon Salt  
1/4 cup Crisco  
cold Water

Sift flour and salt together. Cut Crisco in with two knives until the mixture is about the consistency of coarse meal. Add enough water—four to six table-spoonfuls—to make a paste which clears the bowl. Form lightly into dough. Divide; roll out on slightly floured board about 1/4 inch thick. Sufficient for one medium size pie. To make a one-crust pie use one-half the amount.

## Corn Oysters

You will love these and you can fry them without any smoke.

1 cup Corn 1 Egg  
1/4 cup Flour Salt and Pepper  
Beat the egg until foamy, add to the corn. Mix flour, salt and pepper and add this to the corn. Beat well. Drop by spoonfuls in deep Crisco. Fry a golden brown. They should be made about the size of a large oyster. Makes two dozen.

Note—Our readers may obtain free a new 80 page cook book by addressing the National Cooking Service, 563 Fifth Avenue, New York City.

A Typical Thanksgiving Table. (Below) The noble bird which forms the piece de resistance of the Dinner

## LABOR SEEKING

### PEACE IN RANKS

#### WILL GIVE STONE CHANCE TO EXPLAIN NON-UNION COAL MINES

El Paso, Tex., Nov. 24.—Warren S. Stone, head of the Brotherhood of Locomotive Engineers, who is alleged to be operating nonunion coal mines in Kentucky and West Virginia will be given another opportunity to settle with the Mine Workers' union before being declared unfair to organized labor.

In its report to the convention of the American Federation of Labor here, the committee on boycotts will certify that Stone's company operating the Coal River collieries where there is a strike of union miners, has refused to sign working agreements with the miners' union, but will recommend the entire matter be referred to Pres. Samuel Gompers and the executive council of the federation. "The report will ask that an attempt be made to bring about a settlement between the miners' union and Stone.

If Stone refuses to agree to unionization of the mines the executive council will be empowered to proclaim to organized labor that Stone is unfair and an enemy of collective bargaining. There appeared little likelihood of any serious fight on the floor of the convention over the matter although leaders of the railroad shop crafts unions have announced they will fight any proposal attacking the engineers' chief.

## Radiola Super-Heterodyne Second Harmonic

Radiola Super-Heterodyne needs no aerial or ground. Super-sensitiveness—super-selectivity—faithful reproduction—portability and reliability are the outstanding features of Radio Super-Heterodyne.

This Radiola is especially useful in thickly populated districts, but possibilities vacation travelling and general use are almost unlimited.

Radiola Super-Heterodyne (second harmonic) with separate Radiola loud speaker, with six UV-199 Radiotrons, but without batteries.....\$269.00

## Taylor Sales Service

Registered RCA Dealer and Service Station  
First National Bank Bldg.

## JUST AS GOOD

A famous selling phrase.

Originated by Esau when he trimmed his brother Jacob out of his birthright in exchange for a mess of pottage.

Successfully used by all get-rich-quick promoters in unloading gold mines, oil stocks, and other fakes on an innocent public.

There is lots of coal from the State of Kentucky, but this does not make all these different kinds equally good. There is only one GENUINE "KENTUCKY SPECIAL" COAL from Kentucky, and we handle it, exclusively.

Also Island Creek Splint at \$10.00. Much better than cheap Kentucky.

## Hayes-Lucas Lumber Co.

R. L. GEIST, Mgr.  
105 South Broadway Telephone 14

## A queen and her castle

They were seated in the living-room—Fred Henderson and his guest from the office—waiting for the dinner gong.

"Nice little home you have here, Fred. Everything so neat and in good taste. What's the recipe?"

"Credit the little woman in there. She's the home manager—art director, purchasing agent and general counsel on what to buy and how to buy.

"She knows! Reads the advertisements! Reasons that advertised goods must be right goods—in style, taste, quality; that they must be truthfully represented, and that they must be worth every penny asked for them. If they were not, the manufacturer making them or the dealer selling them could not long continue in business. Logical, isn't it?"

"Yes, sir, Bill, if I were as well informed on things to eat, clothes to wear and furnishings for the home as Louise, I'd kick up this bally job of mine and become an 'Expert Adviser to People Who Don't Read Advertisements.'"

Advertisements are your expert adviser  
on buying wisely—read them all

# Tried and Tested Recipes for the Thanksgiving Table

AS the 27th of November approaches, the Thanksgiving Dinner becomes a matter of paramount importance in the mind of the housewife who is always alert for new ideas in the culinary art. Here are some tried and tested recipes for the Thanksgiving table, prepared by a home economics expert of long experience, which are sure to make the occasion double cause for rejoicing.

## Chicken Pie (Southern Style)

Cook chicken until tender. Remove meat from the bones. Thicken the gravy. Line a deep baking dish with the following pastry, leaving enough to cover the top:

2 cups Flour 1 Egg beaten  
1/2 cup Crisco 1 tablespoon  
ice water Lemon Juice  
1/2 teaspoon Salt

Sift flour and salt; cut Crisco in with two knives. Add gradually the lemon juice and egg mixed together. Add enough ice water to hold the mixture together for rolling. When the baking dish is lined with the pastry put in a layer of chicken, then a layer of sliced boiled carrots and small boiled white onions. Season to taste; add another layer of chicken and so on until the dish is filled. Cover with gravy. Roll the rest of the pastry, cover, pressing edges together closely and make a few slits in the top to allow steam to escape. Bake in hot oven, 450 degrees, until done.

## Fluffy Biscuits

2 cups Flour 1/2 teaspoon Salt  
2 teaspoons 2 tablespoons  
Baking Powder Crisco  
3/4 cup Milk

Sift together four times, flour, baking powder and salt. Mix Crisco in very lightly with fork. Add milk slowly; roll out or pat with hands on floured board to about one inch thickness. Handle as little as possible. Cut with biscuit cutter first dipped in flour. Bake in hot oven, 375 degrees, twelve or fifteen minutes.

## Caramel Sweet Potatoes

With a lovely glaze; without smoke or scorching when fried as directed.

4 sweet Potatoes  
hot Crisco

## Granulated Sugar

Boil the potatoes, peel and then cut them lengthwise in halves. Fry in skillet in hot Crisco. While frying, sprinkle generously with sugar on both sides.

## Crisco Plum Pudding

An old English Plum Pudding. It is delicious and will keep a long time when made as directed.

1 cup Crisco 1/4 cup Fruit  
1/2 cup granulated Juice, any kind  
Sugar 1 cup Flour  
4 Eggs 2 teaspoons  
1/2 cup Milk Baking Powder  
(hot or scalded) 1 teaspoon Salt  
1 cup seeded 1 teaspoon  
Raisins, cut fine Cinnamon  
1/2 cup Currants 1/2 teaspoon  
1/2 cup chopped Nutmeg  
Figs 1/2 teaspoon

2 ounces Citron  
cut fine 1/2 teaspoon Mace  
Enough fresh Bread Crumbs to  
make one cupful when moistened  
with 1/2 cupful Milk.

Cream the Crisco and sugar, add egg yolks well beaten. Add the bread crumbs when cool. Then the fruit juice and fruit. Sift together remaining dry ingredients and last stir in egg whites beaten stiff. Put in greased mold, cover and steam five hours in covered steamer over kettle of hot water. Fill mold only three-quarters full to allow for rising while steaming.

## Special Pie Crust

This recipe makes a tender, flaky crust which is especially fine for mince and pumpkin pies.

For a Two-Crust Pie.  
2 1/2 cups Flour  
1 teaspoon Salt  
3/4 cup Crisco  
cold Water

Sift flour and salt together. Cut Crisco in with two knives until the mixture is about the consistency of coarse meal. Add enough water—four to six tablespoons—to make a paste which clears the bowl. Form lightly into dough. Divide; roll out on slightly floured board about 1/4 inch thick. Sufficient for one medium size pie. To make a one-crust pie use one-half the amount.

## Corn Oysters

You will love these and you can fry them without any smoke.

1 cup Corn 1 Egg  
1/4 cup Flour Salt and Pepper

Beat the egg until foamy, add to the corn. Mix flour, salt and pepper and add this to the corn. Beat well. Drop by spoonfuls in deep Crisco. Fry a golden brown. They should be made about the size of a large oyster. Makes two dozen.

Note—Our readers may obtain free a new 80 page cook book by addressing the National Cooking Service, 563 Fifth Avenue, New York City.

## LABOR SEEKING

## PEACE IN RANKS

### WILL GIVE STONE CHANCE TO EXPLAIN NON-UNION COAL MINES

El Paso, Tex., Nov. 24.—Warren S. Stone, head of the Brotherhood of Locomotive Engineers, who is alleged to be operating nonunion coal mines in Kentucky and West Virginia will be given another opportunity to settle with the Mine Workers' union before being declared unfair to organized labor.

In its report to the convention of the American Federation of Labor here, the committee on boycotts will certify that Stone's company operating the Coal River collieries where there is a strike of union miners, has refused to sign working agreements with the miners' union, but will recommend the entire matter be referred to Pres. Samuel Gompers and the executive council of the federation.

"The report will ask that an attempt be made to bring about a settlement between the miners' union and Stone.

If Stone refuses to agree to unionization of the mines the executive council will be empowered to proclaim to organized labor that Stone is unfair and an enemy of collective bargaining. There appeared little likelihood of any serious fight on the floor of the convention over the matter although leaders of the railroad shop crafts unions have announced they will fight any proposal attacking the engineers' chief.

## A queen and her castle

They were seated in the living-room—Fred Henderson and his guest from the office—waiting for the dinner gong.

"Nice little home you have here, Fred. Everything so neat and in good taste. What's the recipe?"

"Credit the little woman in there. She's the home manager—art director, purchasing agent and general counsel on what to buy and how to buy.

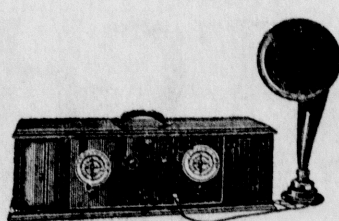

"She knows! Reads the advertisements! Reasons that advertised goods must be right goods—in style, taste, quality; that they must be truthfully represented, and that they must be worth every penny asked for them. If they were not, the manufacturer making them or the dealer selling them could not long continue in business. Logical, isn't it?"

"Yes, sir, Bill, if I were as well informed on things to eat, clothes to wear and furnishings for the home as Louise, I'd kick up this bally job of mine and become an 'Expert Adviser to People Who Don't Read Advertisements.'"

Advertisements are your expert adviser  
on buying wisely—read them all

## Radiola Super-Heterodyne second Harmonic

Radiola Super-Heterodyne needs no aerial or ground. Super-sensitiveness—super-selectivity—faithful reproduction—portability and reliability are the outstanding features of Radio Super-Heterodyne.

This Radiola is especially useful in thickly populated districts, but possibilities vacation travelling and general use are almost unlimited.

Radiola Super-Heterodyne (second harmonic) with separate Radiola loud speaker, with six UV-199 Radiotrons, but without batteries.....\$269.00

## Taylor Sales Service

Registered RCA Dealer and Service Station  
First National Bank Bldg.

## JUST AS GOOD

A famous selling phrase.

Originated by Esau when he trimmed his brother Jacob out of his birthright in exchange for a mess of pottage.

Successfully used by all get-rich-quick promoters in unloading gold mines, oil stocks, and other fakes on an innocent public.

There is lots of coal from the State of Kentucky, but this does not make all these different kinds equally good. There is only one GENUINE "KENTUCKY SPECIAL" COAL from Kentucky, and we handle it, exclusively.

Also Island Creek Splint at \$10.00. Much better than cheap Kentucky.

# THANKSGIVING AT CITY SCHOOLS

Public Schools Are Taking Up Offering of Food, Clothing and Money

## TO AID POOR OF CITY

School Children Bring Donations, Parent-Teachers Associations to Pack and Distribute

The public schools of the city are taking up a Thanksgiving offering of food, clothing and money, to be used for assisting the poor of Brainerd.

The school children are to bring these contributions to the various schools, and the parent-teachers associations will pack them in boxes and assist in the distribution to worthy families on Thanksgiving day.

The school board is planning to offer free vaccination to school children again, probably next week. While smallpox has not gained a foothold in Brainerd as yet, still there is quite a little throughout the state, and the precaution of vaccination may head off an epidemic that might make the closing of schools necessary, it is pointed out.

The state board of health, in a set of resolutions, recommends free vaccination to school children at this time, and strongly suggest that grownups who have not been vaccinated recently, do so at once.

## ELKS THANKSGIVING DANCE

All Elk Brothers Asked to Be There And to Bring Their Friends to the Event

All arrangements have been completed for the Thanksgiving dance to be held in Elks hall this Monday evening, November 24. Hedstrom's Troubadours will furnish the music and promise their peppiest program.

The committee in charge has made every endeavor to make it an evening of rare enjoyment. The public is expected to attend because every cent made on this dance will go into the Elks 1925 state convention fund. This convention is something which will benefit the entire city and lake resort region of Brainerd. Reservations even now are being received for cottages in the lake district and many officers of the state association plan to attend the convention and spend a week additional here, making the whole their annual vacation.

Special entertainment starts at 7:45 p. m. followed by dancing.

## MILFORD MINE PROBE ENDED

Crosby, Minn., Nov. 24.—The Milford mine investigation committee, appointed by Governor Preus soon after the disaster last February which took the lives of forty-one miners held its final session here last week. The members now will prepare the report which will be submitted to Governor Preus.

## EVANGELISTIC SERVICES

Clarence H. Jensen to Begin Service Monday Evening in Full Gospel Assembly Church

Evangelistic services will begin this Monday evening in the Full Gospel Assembly church, across the hill, conducted by Clarence H. Jensen, evangelist and singer.

The services will be made exceptionally interesting to lovers of song by the presence of two talented lady singers who will assist for the first three nights.

The song service starts at 7:30 o'clock. The public is invited to come every night. It will be interesting and uplifting.

## Evangelistic Meetings Continue

The evangelistic meetings will continue all this week at the Swedish Bethany church. Tonight Evangelist Olson from Sweden will be the speaker. The service will be Swedish. Tomorrow night Rev. Alrick Olson will speak. Sunday the church was well filled at the three services. All are welcome.

Lively's expert repair men are at your service day and night. Phone 76.

Against our forty-two millions per year, the U. S. A. spends more than two hundred millions on education. But then, of course, they need it more.—Punch, London.

With Denmark shipping butter in to New York and Minnesota butter on sale in London, the Scandinavians seem to be winning both ways.—Detroit News.

## JOSEPH FISHER DIED

Was Resident of Motley Many Years. Succumbed to Bright's Disease

Joseph Fisher, an old resident of Motley, passed away in a local hospital Saturday, death resulting from bright's disease.

Mr. Fisher was 66 years old, and is survived by two daughters, living in Greene Iowa.

The funeral was conducted Monday morning at 9:30 o'clock from the McNamara chapel, at 10:30 o'clock from the Catholic church at Motley, interment being made in the cemetery in that village.

## DISTRICT COURT PROCEEDINGS

Frank Schultz and Joe Stark, Charged With Robbery, Sentenced to St. Cloud

## BOTH MEN ARE BOHEMIANS

Case Now on Trial is That of State vs. Robert Gustafson, Charged With Statutory Offense

In district court Monday afternoon Frank Schultz and Joe Stark, each one convicted of robbery in the second degree, were sentenced to indeterminate terms in the state reformatory at St. Cloud. The jury in the case of Joe Stark brought in its verdict of guilty at 8 o'clock Saturday evening. S. B. Henke was foreman of the jury.

Schultz stated that he is 29 years old, and was born in Bohemia, coming to the United States in 1912. His mother is living in the old country, his father is dead. He has a sister residing in Newark, N. J. He says that he is a shoemaker by trade.

Stark stated to the court that he is 22 years old, born in Prague, Bohemia. He came to the United States in 1909, living for a time with an aunt in Chicago. He does not know whether or not his parents are living. He firmly asserted that he was innocent of the crime with which he is charged.

The case now on trial is that of the state against Robert T. Gustafson, charged with a statutory offense. The jurors on this case are C. W. Hoffman, Mrs. Harry L. Stearns, Frank Keim, Joe Dotzler, J. P. Early, Emil Johnson, W. Wunderlich, Conrad Isle, F. E. Fuller, Mrs. Clarence Benest, W. E. Entriken, Mrs. A. K. Cohen. All other jurors were excused from further attendance at this term of court, it being probable that the present case will not be concluded before Wednesday, and the term will then no doubt be adjourned until after January 1st, at which time the civil calendar will be disposed of and any other criminal actions heard.

## Rebekah Social Club

The Rebekah social club will meet in Odd Fellow hall tomorrow afternoon, entertained by Mrs. Guy Bacon, Mrs. Fry and Mrs. Mahl. All members including the degree team are asked to be present.

## Thanksgiving Program

There will be a Thanksgiving program and basket social at School District 14, November 26th, at 8:30 o'clock. Miss Alice Peterens is teacher of the school.

## \$100 REWARD TO FIND TUTCH

Wife of Gladstone Lake Farmer Anxious to Find Husband Who Disappeared Nov. 16

## MAY HAVE FALLEN INTO LAKE

Another Theory is He May Be Alive And Suffering From Some Mental Disorder

Mrs. Joseph Tutch, of Gladstone lake, was in the city on Monday, and placed a reward of \$100 for information as to the whereabouts of her husband, who disappeared from his home on the evening of November 16th.

Mr. Tutch left his house about seven o'clock, taking a gas lantern with him, and telling his wife that he was going to the barn. He has not been seen since, and it is feared that he may have wandered into the lake and drowned, or gone into the woods nearby, become lost and died from exposure. Another theory is that he may still be alive and suffering from some mental disorder.

The missing man is described as being about five feet seven inches in height, weighing 145 pounds. He is round-shouldered, has blue eyes, and dark brown hair. He can be identified from powder marks on his face, which are blue in color. He is smooth shaven. Mrs. Tutch states that he is 49 years of age.

When last seen, he wore a black cap, patched overalls and a brown leather vest and six-inch top rubbers.

Friends and neighbors have been searching the surrounding country and have dragged Gladstone lake in the vicinity of the Tutch home, for the past week, without finding a clue to the missing man.

Strictly a Ford schedule is used in making our charges for repair work. You can charge it at Lively's.

## EXAMINATION FOR NAVAL ACADEMY

There is a vacancy at the U. S. Naval Academy, Annapolis, for the Sixth District, and the Civil Service Commission will hold an examination on Saturday, January 3. Full information with reference to this examination may be had by writing Congressman Harold Knutson, Washington, D. C., who will be glad to send applicants all available information.

## Attendance Record Broken

The attendance record of the Swedish Bethany Sunday school which was held by the boys for a week was broken last Sunday by the girls. Next Sunday the boys and girls join with the adult class in an effort to increase the attendance above any yet recorded. The adult class expects to lead the singing with some of the songs sung in the school 30 years ago.

## Alpha Chapter

The regular meeting of Alpha Chapter, O. E. S. will be held in the Masonic parlors this Monday evening. The last initiation of the fiscal year will be held. All members are urged to be present, and visiting members welcome.

## Basket Social

A Thanksgiving program and basket social will be given at the West Oak Lawn school, District 4, on Wednesday evening, November 26, commencing at 8:30 P. M. Everybody is cordially invited. Christine Huseby, teacher.

## COUNTY FARM BUREAU MEETING

Annual Session to be Held in Farmers Room, Court House, Friday Afternoon, Dec. 5

## GOOD PROGRAM ARRANGED

Frank Peck, Director Agricultural Extension Department of University, to be Main Speaker

The annual meeting of the Crow Wing County Farm Bureau will be held on Friday afternoon, December 5th, in the farmers room at the court house.

A very good program has been arranged, to include Frank Peck as the principal speaker. Mr. Peck is director of the agricultural extension department of the University farm. O. M. Wanvig, Deerwood banker, will also be on the program.

Arrangements are being made to give away a registered pure bred dairy sire at this meeting, along lines yet to be decided upon.

The principal business to be transacted will be the annual election of officers. The following are the officers whose term expire at this time:

President—George Butler, Deerwood.

Vice President—P. B. Anderson, Brainerd.

Secretary-Treasurer—Harold Olson, Brainerd.

State Farm Bureau Director—Bert Sabin, Mission.

## Our Basement Offerings For This Week

### Basket Social

A Thanksgiving program and basket social will be given at the West Oak Lawn school, District 4, on Wednesday evening, November 26, commencing at 8:30 P. M.

Everybody is cordially invited. Christine Huseby, teacher.

## COUNTY FARM BUREAU MEETING

Annual Session to be Held in Farmers Room, Court House, Friday Afternoon, Dec. 5

### GOOD PROGRAM ARRANGED

Frank Peck, Director Agricultural Extension Department of University, to be Main Speaker

The annual meeting of the Crow Wing County Farm Bureau will be held on Friday afternoon, December 5th, in the farmers room at the court house.

A very good program has been arranged, to include Frank Peck as the principal speaker. Mr. Peck is director of the agricultural extension department of the University farm. O. M. Wanvig, Deerwood banker, will also be on the program. Arrangements are being made to give away a registered pure bred dairy sire at this meeting, along lines yet to be decided upon.

The principal business to be transacted will be the annual election of officers. The following are the officers whose term expire at this time:

President—George Butler, Deerwood.

Vice President—P. B. Anderson, Brainerd.

Secretary-Treasurer—Harold Olson, Brainerd.

State Farm Bureau Director—Bert Sabin, Mission.

## Our Basement Offerings For This Week

Cotton Batting \$1.00 A large full size comforter bolt of excellent quality batting.

Spool Cotton, doz. 50c Coats 150 yard spools—the greatest thread bargain obtainable.

Stocking Feet 9c Racine stocking feet—these sell regularly at 2-pair for 25c.

## DAY OF BIG PURSES PASSING

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, Nov. 24.—Disturbed by the sharp decline of business in the boxing racket, boxers and their managers are now ready to admit that the day of the huge purse is passing and that boxers will have to fight harder in the future and for less money if the sport is to be maintained in the public fancy.

Eddie Kane, manager for Tom Gibbons and Sammy Mandell, two of the greatest drawing cards in the game, was the first of the prominent handlers of boxers to read the signs and he was the first to start a new precedent for modern managers that will have to be followed if the sport is to be revived.

The big purses that made boxing the most profitable profession in the country for three years resulted from outdoor shows and they were patronized so well that promoters could afford to offer absurd purses for the most ordinary attractions. It was foolish to believe that the public would tolerate indefinitely such an exorbitant assessment for the enjoyment of a sport that was decreasing constantly in class by the refusal of the topnotchers to meet real opponents.

Some managers fooled themselves into the notion that the public would stand for anything and they wouldn't consider a match that would demand any kind of a risk for their fighter. The public finally got fed up on poor shows and stopped paying the freight.

The Firpo-Wills fight was such a terrible bust that it practically closed the outdoor arenas for the season and almost blew up the business.

LINE SMASHES GIVE SOUTHERN  
TEAM AN EASY VIC-  
TORY

MINNESOTA WAS OUTPLAYED BY  
A WIDE MAR-  
GIN

(Minneapolis Tribune)  
Memorial Stadium, Nov. 24.—Springing one of the biggest surprises of the season, Vanderbilt's football team defeated Minnesota here Saturday in one of the Gophers' few intersectional battles in recent years. Minnesota, doped to win by a comfortable score, lost, 16 to 0. The Gophers were outplayed in all departments of the game, the southerners displaying a fast aerial attack coupled with a good line and a quartet of backs able to pierce Minnesota's forward wall.

The visitors scored a touchdown in the first period, missing goal. They added a field goal and a touchdown with goal in the third, running their total to 16, where it remained.

Harold Schutte, Minnesota's backfield star, was stopped Saturday as Minnesota stopped Harold "Red" Grange, the Illinois star. Minnesota was unable to gain near the goal, missing several good opportunities.

DUNDEE'S MANAGER  
BARRED FOR LIFE  
FROM N. Y. RINGS

New York, Nov. 24.—Dick Curley, Chicago boxing manager, might be said to have suffered the severest blow delivered during the first of the Madison Square Garden elimination contests held here Friday night to decide upon a successor of the championship title vacated by Johnny Dundee, featherweight.

Curley's license was revoked by the New York boxing commission and he was barred from New York rings for life as a result of a disturbance he created. He was in the corner with Mike Dundee, Rock Island featherweight, one of the six boxers who appeared in the first of the elimination rounds.

When the decision of the judges was announced against Dundee and in favor of Danny Kramer, a Philadelphia southpaw, Curley kicked the water bucket into the press box, stormed across the ring and kicked at the face of Charles Matthewson, one of the judges, and then ran back to his corner and kicked Patsy Haley, the referee, in the eye. Haley had left the ring and was sitting in the press box awaiting the next bout.

Angered spectators swarmed to the ringside and a riot was threatened, but deputies of the boxing commission led a reserve of special cops, who rushed Curley out of the building. Tex Rickard, promoter of the Garden, was charging through the crowd with his walking stick swinging over his head when friends pulled him back from an attack on the manager.

Members of the boxing commission were at the ring side and after an impromptu session announced that Curley was barred from New York for life.

In the other bouts on the program Kid Kaplan, Meridian, won a 10-rounder from Bobby Garcey, army captain from Camp Hollabird, and Jose Lombardo, Panama, won a 10-round decision from Lew Paluso, Salt Lake City.

## NOTRE DAME GREATEST IN THE MIDDLE WEST

FAMOUS IRISHMEN VICTORIOUS  
IN EAST, WEST AND  
SOUTH

WESTERN CONFERENCE RACE IS  
CLOSEST IN MANY  
YEARS

(Minneapolis Tribune)  
Chicago, Nov. 24.—The Big Ten conference championship went to Chicago, but Mid-West honors went to Notre Dame.

East, West and South, Notre Dame won everything in a season when the South and Southwest were on a par with Midwest leaders. South and Northwestern conference teams invading the Big Ten won one, tied two and lost no games.

Chicago's claim to the Big Ten championship rested on three tie games, which included those three of its Big Ten competitors regarded as strongest. This season, at least, tie games, sometimes disregarded in scoring, cannot be tossed aside, because out of 24 Big Ten games played, five, more than 20 per cent, were tied. These tie games were a true gauge of the closely matched strength of Big Ten eleven.

The season brought fulfillment of the affect that has long been in development in Western football circles, namely its rise to a truly national college sport, instead of being a game limited to a few large universities and sections. Boys everywhere now receive expert football coaching beginning in grade schools,

with the result that no team can be sure of winning every important game.

So closely matched were this year's teams that it was morale before the game rather than ability of stars, that decided crucial games.

Saturday Northwestern was within striking distance of Notre Dame's goal until the end of the game.

Wisconsin, rated as the weaker, had three chances to score to the Maroon's one.

Iowa, considered the underdog at Michigan, stopped the Wolverines better than any other team this fall, holding them to two points.

Grange was not the only star to suffer temporary eclipse. Schutte of Minnesota, "Red's" conqueror, could do nothing against Vanderbilt.

"Five Yards" McCarthy of Chicago was scarcely "five feet."

Steger, Michigan's captain, whom Coach Zuppke of Illinois complimented after the Illinois-Michigan game, was powerless against Iowa, while Parkin, Iowa captain, again justified his sobriquet "a bullet on legs."

Baker of Northwestern, squelched in some midseason games, rose to his greatest brilliance against Notre Dame.

The secret was that all these, and numerous other backs, were so nearly matched that breaks in any game might determine their rating for the day.

The forward pass, the break in so many games this fall, had no important part in the contests Saturday involving the five Big Ten leaders, each of which had a possibility of the championship, depending on the outcome of the day's game. Even the passing of Notre Dame's four dazzling horsemen was largely stopped.

Purdue, defeating Indiana, for the Big Ten honors of Hoosierdom, made the only effective Big Ten use of forward passing. Slight moisture in the turf at Chicago and Ann Arbor

was said to have interfered with the accuracy of passing in these cities. Vanderbilt used passes to defeat Minnesota, passing was attempted in other games, but straight football smothered it.

Illinois' 7 to 0 victory over Ohio State was the first triumph the Illini scored over the Buckeyes on the Illinois field in six years. The game, lacking in thrills because of the absence of Grange, developed into a very ordinary football game, a contest of brute strength instead of the customary runs for which Grange was famous.

Coach Zuppke threw a fast, strong team onto the field to match the speed of the Ohio team, thereby upsetting theories that Illinois, with Grange doing his stuff, was a one-man crew. The defense by the Illini was superb, and only once during the entire battle were they in danger.

Cunningham, the Ohio left end, convinced his admirers that he is one of the very best in the conference as a result of his brilliant work in breaking up the sweeps of the Illinois backfield. Cunningham's tackling was deadly whenever he attempted to stop the charging Illini. He also played brilliantly in nabbing forward passes, but the general aerial attack of the Ohioans lacked the skill of the golden days of Ohio State when the Buckeyes gained fame in the final seconds of play by tossing passes.

### Aged Persons at Wedding

At the golden wedding of a couple in England the bride's mother at ninety-three helped her seventy-year-old daughter and son-in-law of seventy-two to entertain the many guests.

### For Clear Speech in Church

A gift of \$10,000 has been offered in England to start a movement to teach the clergy how to speak and read clearly so that congregations may better understand the services.

### TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens Naturally Nobody Can Tell

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.—Adv.

NOTRE DAME  
GREATEST IN THE  
MIDDLE WESTFAMOUS IRISHMEN VICTORIOUS  
IN EAST, WEST AND  
SOUTHWESTERN CONFERENCE RACE IS  
CLOSEST IN MANY  
YEARS

(Minneapolis Tribune)

Chicago, Nov. 24.—The Big Ten conference championship went to Chicago, but Mid-West honors went to Notre Dame.

East, West and South, Notre Dame won everything in a season when the South and Southwest were on a par with Midwest leaders. South and Southwestern conference teams invading the Big Ten won one, tied two and lost no games.

Chicago's claim to the Big Ten championship rested on three tie games, which included those three of its Big Ten competitors regarded as strongest. This season, at least, tie games, sometimes disregarded in scoring, cannot be tossed aside, because out of 24 Big Ten games played, five, more than 20 per cent, were tied. These tie games were a true gauge of the closely matched strength of Big Ten elevens.

The season brought fulfillment of the affect that has long been in development in Western football circles, namely its rise to a truly national college sport, instead of being a game limited to a few large universities and sections. Boys everywhere now receive expert football coaching beginning in grade schools.

with the result that no team can be sure of winning every important game.

So closely matched were this year's teams that it was morale before the game rather than ability of stars, that decided crucial games.

Saturday Northwestern was within striking distance of Notre Dame's goal until the end of the game.

Wisconsin, rated as the weaker, had three chances to score to the Maroon's one.

Iowa, considered the underdog at Michigan, stopped the Wolverines better than any other team this fall, holding them to two points.

Grange was not the only star to suffer temporary eclipse. Schutte of Minnesota, "Red's" conqueror, could do nothing against Vanderbilt.

"Five Yards" McCarty of Chicago was scarcely "five feet."

Steger, Michigan's captain, whom Coach Zuppke of Illinois complimented after the Illinois-Michigan game, was powerless against Iowa, while Parkin, Iowa captain, again justified his sobriquet "a bullet on legs."

Baker of Northwestern, squelched in some midseason games, rose to his greatest brilliance against Notre Dame.

The secret was that all these, and numerous other backs, were so nearly matched that breaks in any game might determine their rating for the day.

The forward pass, the break in so many games this fall, had no important part in the contests Saturday involving the five Big Ten leaders, each of which had a possibility of the championship, depending on the outcome of the day's game. Even the passing of Notre Dame's four dazzling horsemen was largely stopped.

Purdue, defeating Indiana, for the Big Ten honors of Hoosierdom, made the only effective Big Ten use of forward passing. Slight moisture in the turf at Chicago and Ann Arbor

was said to have interfered with the accuracy of passing in these cities. Vanderbilt used passes to defeat Minnesota, passing was attempted in other games, but straight football smothered it.

Illinois' 7 to 0 victory over Ohio State was the first triumph the Illini scored over the Buckeyes on the Illinois field in six years. The game, lacking in thrills because of the absence of Grange, developed into a very ordinary football game, a contest of brute strength instead of the customary runs for which Grange was famous.

Coach Zuppke threw a fast, strong team onto the field to match the speed of the Ohio team, thereby upsetting theories that Illinois, with Grange doing his stuff, was a one-man crew. The defense by the Illini was superb, and only once during the entire battle were they in danger.

Cunningham, the Ohio left end, convinced his admirers that he is one of the very best in the conference as a result of his brilliant work in breaking up the sweeps of the Illinois backfield. Cunningham's tackling was deadly whenever he attempted to stop the charging Illini. He also played brilliantly in nabbing forward passes, but the general aerial attack of the Ohioans lacked the skill of the golden days of Ohio State when the Buckeyes gained fame in the final seconds of play by tossing passes.

TURN HAIR DARK  
WITH SAGE TEAIf Mixed With Sulphur It Darkens  
Naturally Nobody Can  
Tell

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.—Advt.

## A Pointer on Tobacco—

The slower a tobacco burns, the cooler it smokes. Also the longer it lasts. This slow burning is due to the "cut". Granger is "rough cut" to smoke slow and cool—cut for pipes, not cigarettes. And Wellman's famous old secret method produces richer fragrance and taste.
